

OBJECTIVES

- 1. Understand the structure of the health plan as a business, including its components and its various health insurance products, and the various ERAs associated with all products and services provided by the health plan.

Business Objectives

Students who successfully complete this health plan assignment will:

- 1. Explain the difference between the business structure of the health coverage ("the business") and the medical, financial, and medical-legal issues associated with the business, including the particular medical services to be covered and contracts with providers or health care organizations as "third party contracts" providers, insurers, the state or federal government.

Students will compare the two plans and identify the most relevant legal aspects: the operation of the medical bill that illustrates the structure of the business for each plan.
