Interface Frictions Neta Alexander, 2025-07-18 Neta Alexander explores how ubiquitous design features in digital platforms such as playback speed autoplay and night mode reshape condition and break our bodies *Digital Media and Social Connection in the Lives of Children, Adolescents and Families* Yalda Uhls, Kaveri Subrahmanyam, Amanda Third, 2022-11-29

Streaming Mental Health and Illness Emily Katseanes, 2023-01-04 From mindfulness in schools to meditation apps mental health is bursting out of the psychiatrist's chair and into our everyday conversations As awareness of mental health increases so does its predominance in popular culture which makes for a particularly interesting investigation into the representation of these concerns on our most ubiquitous streaming service Netflix These eight essays explore how the service's original content jumps into those conversations creating helpful or harmful messaging about the inner workings of our minds From toxic masculinity to PTSD adolescence to motherhood mental health touches our lives in myriad ways This interdisciplinary collection explores these intersections examining how representations of mental health on our screens shape our understanding of it in our lives

Superintendent Case Studies Wafa Hozien, 2019-05-13 Reflecting everyday experiences at schools around the country this book presents a series of situations to be analyzed compared contrasted studied and discussed by those who want to be part of this new approach to education and school leadership The book aims to encourage and contribute to the reflection on the situations that school administrators along with their teams must confront and resolve in their roles as pedagogical leaders Therefore it is intended for future educational leaders to take charge in transforming their schools into institutions of educational excellence

Mindmasters Sandra Matz, 2025-01-07 A fascinating exploration of how algorithms penetrate the most intimate aspects of our psychology from the pioneering expert on psychological targeting There are more pieces of digital data than there are stars in the universe This data helps us monitor our planet decipher our genetic code and take a deep dive into our psychology As algorithms become increasingly adept at accessing the human mind they also become more and more powerful at controlling it enticing us to buy a certain product or vote for a certain political candidate Some of us say this technological trend is no big deal Others consider it one of the greatest threats to humanity But what if the truth is more nuanced and mind bending than that In *Mindmasters* Columbia Business School professor Sandra Matz reveals in fascinating detail how big data offers insights into the most intimate aspects of our psyches and how these insights empower an external influence over the choices we make This can be creepy manipulative and downright harmful with scandals like that of British consulting firm Cambridge Analytica being merely the tip of the iceberg Yet big data also holds enormous potential to help us live healthier happier lives for example by improving our mental health encouraging better financial decisions or enabling us to break out of our echo chambers With passion and clear eyed precision Matz shows us how to manage psychological targeting and redesign the data game *Mindmasters* is a riveting look at what our digital footprints reveal about us how they're being used for good and for ill and
