which at first sight shows little coherence to the modern reader and rightly so In a way such miscellanies are mini libraries Nevertheless they are storehouses of wholesome learning in their own right further study reveals a rationale in such collections that leads us to a monastic learning environment in some cases even to the classroom The present volume demonstrates how the study of texts and manuscripts combined opens up windows on the early medieval world of learning as represented by glossaries proto encyclopedias biblical companions hagiographical guides didactic verse or descriptions of the world in word and image The essays demonstrate that scholars have too often concentrated on the study of single texts but especially that the compilations of manuscripts and libraries reflect the kind of knowledge that was required of monks ministers and missionaries for the contemplation celebration and promulgation of the Christian message
