**Leading in the Belly of the Beast** Trevor W. Gardner,2020-08-15 Leading in the Belly of the Beast is an anthology of essays from transformational school leaders around the country who lead in a school system that is not set up for the success of their students namely students of color and students living in poverty The book highlights leaders who begin from the premise that the institution of school system of education in the United States since its inception has been established to maintain the racial cultural and economic status quo and to maintain divisions among these racial cultural and class groups These leaders use this very assertion as a foundation for their transformational leadership from within the

system Leading in the Belly of the Beast includes the voices of nine educators in a variety of positions of school leadership from principals and deans to teacher leaders The unifying experience of these leaders is that they all currently work in the context of a school and therefore have authentic and fresh experiences and expertise to share The goal of Leading in the Belly of the Beast is to emphasize the need to understand that our current system of education is not broken but is functioning to achieve exactly the results it was designed to achieve and then to demonstrate why and how transformative leaders can and must achieve different results for students of color and students living in poverty even while operating in the belly of the beast
