Yoga For Beginners Discount Customer Service:

Customer Service For Dummies Karen Leland, Keith Bailey, 1999-09-24 In today's highly competitive environment good products and good marketing aren't enough. To succeed you also need great customer service. Quality service touches our lives in two important ways: the service we give and the service we receive. *Customer Service For Dummies* 2nd Edition brims with hot tips, techniques, and lots of suggestions for giving your customers the kind of service that you yourself would like to receive. This down-to-earth, step-by-step guide fills you in on ways to take stock of your customer service strengths and weaknesses. Commit to continuous improvement. Work your way through modern-day e-mail and Internet etiquette. Foster positive face-to-face and telephone service. Deal with the unhappy folks among your customers. Packed with practical advice for getting through the everyday challenges at work, *Customer Service For Dummies* 2nd Edition shows you how to develop your staff so that they become service heroes to their customers. This insightful resource also gives you the goods on keeping your sanity when angry customers confront you with clenched fists or wrinkled foreheads. Saying No nicely. Focusing on what you can do for the customer. Tuning into body language and vocal tone. Knowing the importance of both internal and external customers. Achieving gold level service at bronze level cost. Improving market share, whether the company's big, small, or in between. Becoming a better customer by expressing yourself in style. Although customer service basics seem so much like common sense—smile, say please, and say thank you—these gestures alone won't begin to satisfy every situation. Once you expand your definition of service, reconsider who your customers are, and develop a customer-friendly attitude, you'll be in the right place to meet your customers' expectations and right on time to make a pleasingly positive impression. *Getting More* Stuart Diamond, 2012-08-14 NEW YORK TIMES BESTSELLER Learn the negotiation model used by Google to train employees worldwide. U.S. Special Ops to promote stability globally: this stuff saves lives and families to forge better relationships. A 20% discount on an item already on sale. A four-year-old willingly brushes his/her teeth and goes to bed. A vacationing couple gets on a flight that has left the gate 5 million more for a small business, a billion dollars at a big one. Based on thirty years of research among forty thousand people in sixty countries, Wharton Business School Professor and Pulitzer Prize winner Stuart Diamond shows in this unique and revolutionary book how emotional intelligence, perceptions, cultural diversity, and collaboration produce four times as much value as old-school conflictive power, leverage, and logic. As negotiations underlie every human encounter, this immediately usable advice works in virtually any situation: kids, jobs, travel, shopping, business, politics, relationships, cultures, partners, competitors. The tools are invisible until you first see them. Then they're always there to solve your problems and meet your goals. *Yoga Journal*, 2005-05 For more than 30 years *Yoga Journal* has been helping readers achieve the balance and well-being they seek in their everyday lives.
