[EU General Data Protection Regulation](#) James

Castro-Edwards, 2017. **Data Protection Around the World** Elif Kiesow Cortez, 2020-11-20. This book provides a snapshot of privacy laws and practices from a varied set of jurisdictions in order to offer guidance on national and international contemporary issues regarding the processing of personal data and serves as an up to date resource on the applications and practice relevant examples of data protection laws in different countries. Privacy violations emerging at an ever increasing rate due to evolving technology and new lifestyles linked to an intensified online presence of ever more individuals required the design of a novel data protection and privacy regulation. The EU General Data Protection Regulation (GDPR) stands as an example of a regulatory response to these demands. The authors included in this book offer an in depth analysis of the national data protection legislation of various countries across different continents not only including country specific details but also comparing the idiosyncratic characteristics of these national privacy laws to the GDPR. Valuable comparative information on data protection regulations around the world is thus provided in one concise volume. Due to the variety of jurisdictions covered and the practical examples focused on both academics and legal practitioners will find this book especially useful while for compliance practitioners it can serve as a guide regarding transnational data transfers.
