It uses established and new methodologies to analyze how different types of Sino-foreign joint enterprises manage cultural differences between various layers of managers and employees while negotiating strategies that contain conflicts, uncertainties, and frustrations. Much of the book focuses on the relations among personnel and management within Sino-foreign businesses. It highlights how new elements have been introduced in the daily practices of management at the work floor and in the managerial offices, specifically in relation to improving human resource development and resolving conflicts. The book also examines how these transnational firms function in the broader context of Chinese society and politics. In providing freshly researched cases and methodological studies by experienced researchers in the field, the book suggests alternative pathways toward innovative business management in China, thus making it attractive to academics and business managers alike. **Social Work Journal**, 1950

Homeric Responses Gregory Nagy, 2003 The Homeric Iliad and Odyssey are among the world's foremost epics. Yet millennia after their composition, basic questions remain about them: Who was Homer, a real or an ideal poet? When were the poems composed, at a single point in time or over centuries of composition and performance? And how were the poems committed to writing? These uncertainties have been known as The Homeric Question, and many scholars, including Gregory Nagy, have sought to solve it. Elaborate his theories regarding the oral composition and evolution of the Homeric epics. Building on his previous work in *Homeric Questions and Poetry as Performance: Homer and Beyond* and responding to some of his critics, he examines such issues as the importance of performance and the interaction between audience and poet in shaping the poetry, the role of the rhapsode, the performer of the poems, in the composition and transmission of the poetry, the irreversible mistakes and cross references in the Iliad and Odyssey as evidence of artistic creativity, and the Iliadic description of the shield of Achilles as a pointer to the world outside the poem, the polis of the audience. *Wagner's Life and Works ...* Gustav Kobbé, 1890 *Replies [afterw.] The Oracle*, **The Examination Culture in Imperial China** Liu Haifeng, 2018-01-01 This book studies the Chinese imperial examination from a variety of perspectives. The imperial examination was the literary civil service exam in ancient China, yet it embodied properties of educational exams. The first section of this book opens with the centennial anniversary of the abolition of the examination system, where the injustice done to the imperial examination system is discussed. The second section discusses the inception of the imperial examination.
