Bert Bower,2011 *History Alive!* Teachers' Curriculum Institute,2004 Book Steven Berbeco,2011-08-19 Abstract In this study I propose a strong and innovative model of teaching that centers on the student and I report on the efficacy of this model using quantitative research procedures This model of teaching is systematized in the Marhaba curriculum a method of teaching first year high school Arabic that I designed tested and evaluated The Marhaba curriculum is founded on best practices and is a natural outgrowth of contemporary education theories including non linear curriculum design and multiple modality teaching materials that take into consideration students diverse learning styles Analysis of data indicates that use of the Marhaba curriculum positively influences student proficiency in Arabic In particular students become proficient regardless of a student s gender grade socioeconomic status or parent educational background Also student proficiency is not dependent on a student s attitude to learning or engagement in class or a student s attitude toward the curriculum **Bring Learning Alive!** Teachers Curr,Bert Bower,Jim Lobdell,Sherry Owens,2005 **From Crayons to Condoms** Steve Baldwin,Karen Holgate,2008 Lavishly armed with your tax dollars governments at every level are funding mass social experimentation on American kids success optional *Student's Notebooks* New York State Library.
