**Business Statistics of the United States 2020** Susan Ockert,2021-01-05 Business Statistics of the United States is a comprehensive and practical collection of data from as early as 1913 that reflects the nation's economic performance. Business Statistics of the United States is the best place to find historical perspectives on the U.S. economy. Of equal importance to the data are the introductory highlights, extensive notes, and figures for each chapter that help users to understand the data, use them appropriately, and if desired, seek additional information from the source agencies. Business Statistics of the United States provides a rich and deep picture of the American economy and contains approximately 3,500 time series in all. The data are predominately from federal government sources, including Board of Governors of the Federal Reserve System, Bureau of Economic Analysis, Bureau of Labor Statistics, Census Bureau, Employment and Training Administration, Energy Information Administration, Federal Housing Finance Agency, U.S. Department of the Treasury.
