Christ in Christian Tradition Alois Grillmeier,1987 *The Art of God Incarnate* Aidan Nichols,2016-04-22 The Art of God Incarnate proposes that visual art is a good way to think of how the incarnation the central truth claim of Christianity can be said to reveal the divine In the book of Genesis the human being fresh from the hands of the Creator is the image of God in the temple of the world In an environment of distorted images the prophets sought to make visible by symbolic gestures the divine attitude toward Israel as well as looking forward to a new divine intervention to redeem history and transfigure human lives For the New Testament faith this transforming intervention has come about through the restoration of the divine image in man Jesus Christ is the true and living icon of the Father and the model from whose radiance human beings generally can be re fashioned Despite the anti iconic legislation of the Hebrew Bible it was inevitable therefore that under the New Covenant a visual art would make its appearance since God had now made himself visible in his humanized Son During the iconoclast crisis which shook the Eastern Roman Empire it was the achievement of the later Greek fathers to spell out this claim doctrinally Modern aesthetics can throw further light especially by way of phenomenology and semiotics on how an artwork can be a communicator of meaning and truth Finally there is the question of how human beings are to make their own this revelation of God in the visual realm In the Latin tradition especially among the monastic teachers of the twelfth century the biblical theme of man made in the divine image and likeness was used to speak of how people can be changed by the fresh resources that revelation provides Through growth in charity they themselves can become saints images of God

**Christ in Christian Tradition** Alois Grillmeier (SI),1965 *Christ in Christian Tradition: From the Council of Chalcedon (451) to Gregory the Great (590-604) (4 v* Alois Grillmeier,1975 The Christian Tradition Jaroslav Pelikan,2008-12-08 A magnificent history of doctrine New York Review of Books In this volume Jaroslav Pelikan continues the splendid work he has done thus far in his projected five volume history of the development of Christian doctrine defined as what the Church believes teaches and confesses on the basis of the word of God The entire work will become an indispensable resource not only for the history of doctrine but also for its reformulation today Copious documentation in the margins and careful indexing add to its immense usefulness E Glenn Hinson Christian Century This book is based on a most meticulous examination of medieval authorities and the growth of medieval theology is essentially told in their own words

What is more important however than the astounding number of primary sources the author has consulted or his sovereign familiarity with modern studies on his subject is his ability to discern form and direction in the bewildering growth of medieval Christian doctrine and by thoughtful emphasis and selection to show the pattern of that development in a lucid and persuasive narrative. No one interested in the history of Christianity or theology and no medievalist whatever the field of specialization will be able to ignore this magnificent synthesis. Bernhard W. Scholz, *History of Theology*. The series is obviously the indispensable text for graduate theological study in the development of doctrine and an important reference for scholars of religious and intellectual history as well. Professor Pelikan's series marks a significant departure and in him we have at last a master teacher. Marjorie O'Rourke Boyle, *Commonweal*.
