

Cooling Theory Lectures Notes

Markus Hupfer and members of the team!

September 7, 2024

These are the notes for the first lecture. I have not gone through and given feedback or references for all of the reading given. Some are the proceedings, which usually are the source, the other publications on Cooling Theory and the book of Hoffman and Pines. I have not read all of the proceedings of the first meeting. I also read some other writing by Hoffman, Pines and Pines in Part II of the proceedings on Cooling Theory and Crystallization given by Professor Pines. I also read some other work by Pines and Hoffman on Crystallization and Crystallization Kinetics given by Professor Pines. I also included some other work by Pines in the proceedings, Applied Math for the First Meeting. The last section of the notes is based on the Hoffman and Pines writing, "Cooling Kinetics".

All numbers in these notes are my best.
