The Social Ecology of Resilience Michael Ungar, 2011-10-08 More than two decades after Michael Rutter 1987 published his summary of

protective processes associated with resilience researchers continue to report definitional ambiguity in how to define and operationalize positive development under adversity The problem has been partially the result of a dominant view of resilience as something individuals have rather than as a process that families schools communities and governments facilitate Because resilience is related to the presence of social risk factors there is a need for an ecological interpretation of the construct that acknowledges the importance of people s interactions with their environments The Social Ecology of Resilience provides evidence for this ecological understanding of resilience in ways that help to resolve both definition and measurement problems

Families as Complex Systems Ana Teixeira de Melo,2025-06-30 This book presents an innovative framework for conceptualising families as complex systems and for understanding and supporting positive change adaptation and resilience The development of this framework was based on a qualitative and abductive research process targeting change and resilience processes in multi challenged families The theoretical novelty of this book is mostly expressed in the notion of Love Force a relational force emerging from the coupling processes between individuals with potential transformative effects on them their interactions and environments This book introduces a new vocabulary for understanding the complexity of families as complex systems and their change and resilience processes Love Force is presented as a supreme expression of the complexity of families and human bonds It elaborates on the complexity of the family bonds on the relation of Love Force to change and resilience and its contributions to the conceptualisation of the Potential for Family Change Raising important theoretical and methodological challenges and questions it presents a guide for future interdisciplinary research in the domains of complexity and family sciences and advances in practice As such it will be of interest to anyone interested in the complexity of human relations and to complexity scientists as much as family theorists researchers and practitioners
