Quantitative Research In Education A Primer

**Mary Renck Jalongo, Gail J.
Gerlach, Wenfan Yan**

Quantitative Research In Education A Primer:

Quantitative Research in Education Wayne K. Hoy, 2010 This is a brief and practical guide to conducting research in education It provides a reference point for beginning educational researchers to grasp the most pertinent elements of designing and conducting research

Quantitative Research in Education Wayne K. Hoy, Curt M. Adams, 2015-07-22 The book provides a reference point for beginning educational researchers to grasp the most pertinent elements of designing and conducting research Megan Tschannen Moran The College of William Mary Quantitative Research in Education A Primer Second Edition is a brief and practical text designed to allay anxiety about quantitative research Award winning authors Wayne K Hoy and Curt M Adams first introduce readers to the nature of research and science and then present the meaning of concepts and research problems as they dispel notions that quantitative research is too difficult too theoretical and not practical Rich with concrete examples and illustrations the Primer emphasizes conceptual understanding and the practical utility of quantitative methods while teaching strategies and techniques for developing original research hypotheses The Second Edition includes suggestions for empirical investigation and features a new section on self determination theory examples from the latest research a concluding chapter illustrating the practical applications of quantitative research and much more This accessible Primer is perfect for students and researchers who want a quick understanding of the process of scientific inquiry and who want to learn how to effectively create and test ideas

Comparative Education Research Mark Bray, Bob Adamson, Mark Mason, 2007-07-20 Approaches and methods in comparative education research are of obvious importance but do not always receive adequate attention This book contributes new insights within the longstanding traditions of the field A particular feature is the focus on different units of analysis Individual chapters compare places systems times cultures values policies curricula and other units These chapters are contextualised within broader analytical frameworks which identify the purposes and strengths of the field The book includes a focus on intra national as well as cross national comparisons and highlights the value of approaching themes from different angles The book will be of great value not only to producers of comparative education research but also to consumers who wish to understand more thoroughly the parameters and value of the field

Conducting Educational Research Patricia D. Morrell, James B. Carroll, 2010-01-01 Conducting Educational Research A Primer for Teachers and Administrators is designed to provide the step wise content specific information masters students must possess to design conduct and disseminate a qualitative quantitative or mixed methods classroom or school research study The text will help school professionals to see both the value of being life long critical consumers of educational research and the merit of using research in helping them to become teacher leaders and or change agents in their own professional settings Specifically the text would provide master level students with The background they need to see the importance of educational research in their daily professional lives Instruction in all aspects of a typical five chapter research design introduction literature review methodology results conclusion discussion

implications The tools needed to locate and critically review published educational research Instruction on common qualitative methodologies Instruction on the types of quantitative methodologies that master level candidates would be most likely to use Knowledge of the importance of being intelligent consumers of existing research Ways to engage the student in a reflection plan for the future

Journal of Technology Education ,1997 *An Education Research Primer* Patricia A. Lauer,2006-03-31 Produced by Mid continent Research for Education and Learning McREL one of the nation s foremost educational research and training organizations An Education Research Primer gives educators a basic understanding of educational research its guiding criteria and its relevance to school based decision making In clear and concise language the book summarizes the various types of educational research explaining their diverse purposes and methods For example the difference between experimental research studies involving control group trials and descriptive research based on descriptive information and relationships is explained including how each is designed to address different types of research questions and why each might have different applications The book also describes what s involved in setting up a comparison control group and how some studies have randomized control groups while others do not In addition the book describes the different types of data collection methods used in research and how this can bear on the research findings

Handbook of Special Education James M. Kauffman,Daniel P. Hallahan,2011-05-15 Special education is now an established part of public education in the United States by law and by custom However it is still widely misunderstood and continues to be dogged by controversies related to such things as categorization grouping assessment placement funding instruction and a variety of legal issues The purpose of this 13 part 57 chapter handbook is to help profile and bring greater clarity to this sprawling and growing field To ensure consistency across the volume chapter authors review and integrate existing research identify strengths and weaknesses note gaps in the literature and discuss implications for practice and future research Key features include Comprehensive Coverage Fifty seven chapters cover all aspects of special education in the United States including cultural and international comparisons Issues Trends In addition to synthesizing empirical findings and providing a critical analysis of the status and direction of current research chapter authors discuss issues related to practice and reflect on trends in thinking Categorical Chapters In order to provide a comprehensive and comparative treatment of the twelve categorical chapters in section IV chapter authors were asked to follow a consistent outline Definition Causal Factors Identification Behavioral Characteristics Assessment Educational Programming and Trends and Issues Expertise Edited by two of the most accomplished scholars in special education chapter authors include a carefully chosen mixture of established and rising young stars in the field This book is an appropriate reference volume for anyone researchers scholars graduate students practitioners policy makers and parents interested in the state of special education today its research base current issues and practices and future trends It is also appropriate as a textbook for graduate level courses in special education

The Journal of Education ,1904 Annual Editions: Research Methods Mary Renck Jalongo,Gail J. Gerlach,Wenfan

Yan,2000-08 A collection of current carefully selected articles from some of the most respected newspapers magazines and journals published today Within the pages of this new volume are interesting well illustrated articles providing effective and useful perspectives on today s important topics concerning research methods Our student Web site Dushkin Online www dushkin com online is designed to support Annual Editions titles *What Works in Teaching and Learning* ,2004

Resources in Education ,1982 *Research in Education* James H. McMillan,Sally Schumacher,1984 Lewis's Child and Adolescent Psychiatry Andrés Martin,Fred R. Volkmar,Melvin Lewis,2007 Established for fifteen years as the standard work in the field Melvin Lewis s Child and Adolescent Psychiatry A Comprehensive Textbook is now in its Fourth Edition Under the editorial direction of Andr s Martin and Fred R Volkmar two of Dr Lewis s colleagues at the world renowned Yale Child Study Center this classic text emphasizes the relationship between basic science and clinical research and integrates scientific principles with the realities of drug interactions This edition has been reorganized into a more compact clinically relevant book and completely updated with two thirds new contributing authors The new structure incorporates economics diversity and a heavy focus on evidence based practice Numerous new chapters include genetics research methodology and statistics and the continuum of care and location specific interventions A companion Website provides instant access to the complete fully searchable text *Oncology Massage* Janet Penny,Rebecca Sturgeon,2021-04-15 In *Oncology Massage* an integrative approach to cancer care the authors have created a textbook which will provide both experienced and inexperienced therapists with a resource to expand their knowledge and understanding of working with people with cancer Cancer occurrence and survivorship are now so common that every massage therapist will at some time work with clients who have been through cancer treatment The short and long term effects of biomedical cancer treatment require massage therapy adaptations to pressure site position and duration to provide safe and effective treatments Informed massage therapists can support the body to promote overall wellness as well as identify the underlying secondary effects of cancer treatment that contribute to physical dysfunction *Oncology Massage An Integrative Approach to Cancer Care* provides massage therapists with essential information for Treatment planning based on the physiology of cancer and cancer treatments Critical thoughtful treatment decision making Consideration of the psychosocial effects of cancer Enhancing therapist self awareness and building a therapeutic relationship The information is presented in a clear and simple format with plentiful use of illustrations and information boxes which allows it to be used both as a learning tool for those new to the field of oncology massage and as a resource for quick referral when working with new patients The techniques of massage therapy change very little it is the knowledge and understanding of their use that distinguishes a massage therapist *Oncology Massage* is unusual in that it includes contributions not only from a range of experienced practitioners but also from people with cancer who have received massage during and after cancer treatment This feedback from clients provides an invaluable addition to the understanding of how massage can be used as a safe and effective part of cancer care *Research Methods*
