Built To Last:

Built to Last James Charles Collins, Jerry I. Porras, 1998 *Success Built to Last* Jerry Porras, Stewart Emery, Mark Thompson, 2007-08-28 The phenomenal follow up to the bestselling *Built to Last* Imagine discovering what successful people have in common distilling it into a set of simple practices and using them to transform your career and your life That's what Jerry Porras Stewart Emery and Mark Thompson leading thinkers in organizational development and self improvement have done in *Success Built to Last* Two hundred remarkable people are included notably Jeff Bezos founder and CEO Amazon.com Warren Buffett Bill Clinton Frances Hesselbein former CEO Girl Scouts of America Maya Angelou Bill Gates Each shares how he or she harvested victories learned from failures and found the courage to be true to their passions By following a set of simple principles culled from these inspiring interviews readers can transform their business and personal lives and discover the true meaning of success *Outdoor Furniture (Built to Last)* Skills Institute Press, 2011-05-01 Design and build beautiful wooden outdoor furniture sturdy enough to withstand Mother Nature with the detailed techniques and step by step instructions in this handy guide *A Marriage Built to Last* Marina Savkovic, 2025-11-08 *A Marriage Built to Last* is a heartfelt and practical anthology that beautifully illuminates the enduring craftsmanship required to forge a truly resilient partnership Through a series of intimately connected narratives the book introduces various iterations of Elara a soul often characterized by her vibrant energy or visionary spirit as she collaborates with partners like Caspian and Liam Each story serves as a compelling blueprint demonstrating that a lasting marriage isn't merely a feeling but a continuously constructed edifice built brick by brick moment by moment through mutual respect unwavering support and the shared commitment to navigate life's inevitable challenges together From a vibrant artist and a quiet sculptor whose initial battleground of creative differences lays the foundation for profound understanding to an architect whose ambitious cabin design is perfected by her builder husband's patient hands these tales illustrate how contrasting personalities can perfectly interlock The characters confront a delightful array of obstacles from spilled paint and burnt dinners to the literal collapse of structural frameworks yet they approach each hurdle not as a setback but as an opportunity for collaborative problem solving and deeper connection With vivid imagery of carefully joined wood hand painted murals and the resilient nature of shared dreams *A Marriage Built to Last* is an ode to the quiet strength of enduring commitment It reminds us that the most beautiful connections are those that bear the marks of their journey the struggles the triumphs and the imperfections proving that true love like a well crafted home is a tangible masterpiece steadfastly built to withstand any storm and truly stand the test of time **Built to Last** Jim Collins, Jerry I. Porras, 2011-08-30 This is not a book about charismatic visionary leaders It is not about visionary product concepts or visionary products or visionary market insights Nor is it about just having a corporate vision This is a book about something far more important enduring and substantial This is a book about visionary companies So write Jim Collins and Jerry Porras in this groundbreaking book that shatters myths provides new insights and gives

practical guidance to those who would like to build landmark companies that stand the test of time Drawing upon a six year research project at the Stanford University Graduate School of Business Collins and Porras took eighteen truly exceptional and long lasting companies they have an average age of nearly one hundred years and have outperformed the general stock market by a factor of fifteen since 1926 and studied each company in direct comparison to one of its top competitors They examined the companies from their very beginnings to the present day as start ups as midsize companies and as large corporations Throughout the authors asked What makes the truly exceptional companies different from other companies What separates General Electric 3M Merck Wal Mart Hewlett Packard Walt Disney and Philip Morris from their rivals How for example did Procter Gamble which began life substantially behind rival Colgate eventually prevail as the premier institution in its industry How was Motorola able to move from a humble battery repair business into integrated circuits and cellular communications while Zenith never became dominant in anything other than TVs How did Boeing unseat McDonnell Douglas as the world s best commercial aircraft company what did Boeing have that McDonnell Douglas lacked By answering such questions Collins and Porras go beyond the incessant barrage of management buzzwords and fads of the day to discover timeless qualities that have consistently distinguished out standing companies They also provide inspiration to all executives and entrepreneurs by destroying the false but widely accepted idea that only charismatic visionary leaders can build visionary companies Filled with hundreds of specific examples and organized into a coherent framework of practical concepts that can be applied by managers and entrepreneurs at all levels Built to Last provides a master blueprint for building organizations that will prosper long into the twenty first century and beyond
