Screening Protest Alexa Robertson, 2018-07-11 Screening Protest brings together a range of scholarly perspectives on the study of protest mediations on television and in film. Arguing that the screen is a fruitful if overlooked analytical focus, the book explores how visual narratives of protest wander across borders, territorial, temporal, and generic. Chapters compare coverage of major protests in recent history by global news channels like Al Jazeera, English BBC World, CNN International, and RT. They consider how geopolitical agendas, newsroom culture, and the ubiquity of eyewitness footage shape the narration of events such as the Umbrella Revolution in Hong Kong, anti-austerity protests in Greece, pro-EU mobilizations in Ukraine, and clashes in Ferguson. A focus on narrative allows authors to compare such news stories with popular cultural depictions of the protester in films and television series such as *The Hunger Games*, *Robin Hood*, and *Suffragette*. Although focussed on the screen, the scope of the book is broad, given its exploration of images distributed worldwide. Written with both scholars and students in mind, *Screening Protest* will interest researchers in political science, sociology, media, and film studies, as well as the general reader interested in current affairs.

Scenography and Art History Astrid Von Rosen, Viveka Kjellmer, 2021-05-20 *Scenography and Art History* reimagines scenography as a critical concept for art history and is the first book to demonstrate the importance and usefulness of this concept for art historians and scholars in related fields. It provides a vital evaluation of the contemporary importance of scenography as a critical tool for art historians and scholars from related branches of study, addressing phenomena such as witchy designs, Early Modern festival books, live rock performances, digital fashion, photography, and outdoor dance interventions. With its nuanced and detailed case studies, this book is an innovative contribution to ongoing debates within art history and visual studies concerning multisensory events. It extends the existing literature by demonstrating the importance of a reimagined scenography concept for comprehending historical and contemporary art histories and visual cultures more broadly. The book contends that scenography is no longer restricted to the traditional space of the theatre but has become an important concept for approaching art historical and contemporary objects and events. It explores scenography not solely as a critical approach and theoretical concept but also as an important practice linked with unrecognized labour and broader political, social, and gendered issues in a great variety of contexts such as festive culture, sacred settings, fashion, film, or performing arts. Designed as a key resource for students, teachers, and researchers in art history, visual studies, and related subjects, the book, through its cross-disciplinary frame, does consider implicitly and explicitly the roles of both scenography and art in society.
