## Apple

1 Apple is a popular fruit that grows on trees. It is round and can come in  
2 different colors, such as red, green, and yellow. Apples grow in orchards,  
3 which are special farms where many apple trees are planted close together.  
4 The apple tree has been around for thousands of years, and people have  
5 been eating apples for a very long time. In fact, apples are one of the most  
6 commonly eaten fruits in the world. Apples are not only delicious but also  
7 very healthy. They are full of vitamins, especially vitamin C, which helps  
8 people stay strong and healthy. Apples also contain a lot of fiber, which is  
9 good for digestion and helps keep the stomach working properly. Many  
10 people enjoy eating apples as a snack, but apples can also be used to make  
11 juice, pie, and many other tasty foods. Some people even use apples in  
12 salads or to make applesauce. There are many different types of apples.  
13 Some are sweet, while others are sour. For example, Granny Smith apples  
14 are green and taste a little sour, while Red Delicious apples are red and taste  
15 sweet. Other types of apples include Fuji, Golden Delicious, and Gala. Each  
16 type has its own flavor and texture, so there is an apple for everyone to  
17 enjoy.

18 In addition to being a healthy and tasty fruit, apples have an important  
19 place in history and technology. The Apple company, which makes famous  
20 products like iPhones, iPads, and Mac computers, was named after the fruit.  
21 The company was started in 1976 by Steve Jobs, Steve Wozniak, and Ronald  
22 Wayne, and it has become one of the most valuable technology companies  
23 in the world. The Apple logo is even a picture of an apple with a bite taken  
out of it. Apples are more than just a fruit; they have been part of history,  
culture, and technology for many years, making them truly special.
