Encyclopedia of Behavioral Neuroscience: P-V & index George F. Koob,Michel Le Moal,Richard F. Thompson,2010

Biological Psychology S. Marc Breedlove,Neil Verne Watson,Mark R. Rosenzweig,2010 The new edition boasts hundreds of new references including research students may have encountered in the popular media Yet critical thinking skills are also honed as the reader is alerted to the many widely held myths about the neuroscience of behavior and educated about facts that sound unlikely to the uninformed Thorough and reader friendly Biological Psychology reveals the fascinating interactions of brain and behavior KEY FEATURES The book has an outstanding full color art program including hundreds of

original illustrations that make it easy to understand structures mechanisms and processes in the brain Each chapter opens with a brief outline and a narrative illustrating an important aspect of behavioral biology that will be made clear to the student by reading the rest of the chapter Redesigned chapter summaries are organized by main chapter heads in a readable two column format

The Behavior of the Laboratory Rat Ian Q. Whishaw, Bryan Kolb, 2004-09-02 Both seasoned and beginning investigators will be amazed at the range and complexity of rat behavior as described in the 43 chapters of this volume The behavioral descriptions are closely tied to the laboratory methods from which they were derived thus allowing the investigator to exploit both the behavior and the methods for their own research It will also serve as an indispensable reference for other neuroscientists psychologist pharmacologists geneticists molecular biologists zoologists and their students and trainees

The Human Brain Jackson Beatty, 2001 The author s writing style is easy to read and the text is interspersed with explanations anecdotes and side notes that help hold the reader s interest It is an excellent text at undergraduate level for its readability scope and accuracy Jim Murphy Indiana University The greatest strength of this book is the depth of understanding that the author brings to his subject His written voice is confident and authoritative It s usually easy to tell where authors personal expertise lies by how they rush the sections they don t know as well Jackson Beatty s book does not show this flaw It is consistently clear Laura Freberg California Polytechnic State University San Luis Obispo An impressive textbook The text is generally clear and interesting The author covers even boring material in a way that makes it interesting The organization of the chapters is such that it is easy to locate the major concepts and terms and review the material The book communicates well and I feel prepares the student well for most topics Jon H Kaas Vanderbilt University This book is a conceptually driven and accessible introduction to behavioural neuroscience Focused concise and coherent it reflects integrative trends in the field while making human neuroscience accessible to a wider student audience

Features Conceptually driven and concise The field of biological psychology and behavioral neuroscience has grown exponentially in the past decade and most textbooks have responded by becoming bloated tomes that drown students in unnecessary factoids Beatty provides just the essentials necessary in a text that is focused concise and coherent A contemporary integrative approach with an emphasis on behaviour Some books in this market focus more on biological mechanisms at the expense of how the biology translates into behaviours Most students taking this course plan to go on to become psychologists not biologists and will appreciate Beatty s emphasis on integrative neuroscience and behaviour A programme of sound functional anatomical art Many books in behavioural neuroscience are over designed with splashy four color art that often comes across as gratuitous window dressing Beatty s programme of sound anatomical art favors utility and function with a corresponding respect for students pocketbooks

Special features Test items prepared by Laura Freberg available hardcopy to adopters of the text Detailed anatomical art Figures
