From Colonial Administration to Development Management William N. Cooke,2001 Development Management Justice Nyigmah Bawole,Farhad Hossain,Asad K. Ghalib,Christopher J. Rees,Aminu Mamman,2016-10-04 Despite significant financial investments the rate of development and pace of poverty reduction in developing and transitional countries has not always matched expectations Development management typically involves complex interactions between governmental and non governmental organisations donors and members of the public and can be difficult to navigate This volume brings together a group of international contributors to explore the theoretical and empirical underpinnings of development management and to consider the prospects and challenges associated with it in the context of both developing and transitional countries Referring to dominant norms and values in public and developmental organisations development management is tied up with the attitudes and perceptions of various stakeholders including government officials public sector managers aid workers donors and members of the public Attempting to make sense of complex interactions between these actors is highly problematic and calls for new approaches models and insights Based on cutting edge research the chapters challenge much of the previous discourse on the subject and evaluate the challenges and opportunities that it presents Development Management offers academics researchers and practitioners of public administration business and management international development and political science a comprehensive and state of the art review of current research on development management in the context of developing and transitional countries **The New Development**

Management Sadhvi Dar,Professor Bill Cooke,2013-07-18 Development management is an idea that blends the seemingly innocuous claims of managerialism with notions of modernity and utopian ideals of third world progress This book views both phenomena as problematic and modernizing interventions In doing so it overturns and reclaims such ideas as participation community governance NGOs and civil society The contributors argue that the practices of development are often threaded together by the language of managerialism reports logframe encounters with the boss yet all of these serve to further development s disengagement from the mundane In voicing such concerns about the way development is going and about the encroachment of managerialism The New Development Management will breathe fresh life into post development debates

Development Management In Africa Sadig Rasheed,David Fashole Luke,1995 The changing role of the state in society and the economy new orientations in public sector management and reform and the growing importance of voluntary organizations and entrepreneurs have given new meaning to the concept of development management This book argues that the task of managing development in the 1990s is one of encouraging dynamic interactions among public private and voluntary institutions as well as among external agencies and donors in an effort to raise living standards and to improve economic performance Emphasizing that development is no longer solely a public sector responsibility the contributors offer a wholly new paradigm in place of the traditional concerns of public and development administration They analyze the context in which the private and voluntary sectors and people oriented initiatives have assumed their current prominence and put forward practical recommendations for sustaining linkages among public administration business administration and management practices in support of the development process in Africa
