Email and the Everyday Esther Milne, 2024-07-02 An exploration of how email is experienced understood and materially structured as a practice spanning our everyday domestic and work lives Despite its many obituaries email is not dead As a global mode of business and personal communication email outstrips newer technologies of online interaction it is deeply embedded in our everyday lives And yet perhaps because the ubiquity of email has obscured its study this is the first scholarly book devoted to email as a key historical social and commercial site of digital communication in our everyday lives In *Email and the Everyday* Esther Milne examines how email is experienced understood and materially structured as a practice spanning the domestic and institutional spaces of daily life Email experiences range from the routine and banal to the surprising and shocking Drawing on interviews and online surveys Milne focuses on both the material and the symbolic properties of email She maps the development of email as a technology and as an industry considers institutional uses of email including bureaucratic intensity of workplace email and the continuing vibrancy of email groups and examines what happens when private emails end up in public archives discussing the Enron email dataset and Hillary Clinton's infamous private server Finally Milne explores the creative possibilities of email connecting eighteenth century epistolary novels to contemporary email novels discussing the vernacular expression of ASCII art and mail art and examining email works by Carl Steadman Miranda July and others

Optical Radiometry and Satellite Validation Agnieszka Bialek, David Doxaran, Vittorio Ernesto Brando, Clemence Goyens, Kevin Ruddick, Ana Ines Dogliotti, 2025-08-26 Strict quality control is essential to ensure that the satellite data products routinely used for environmental monitoring of water and land surfaces are fit for purpose A crucial step in this process is the validation of the water and land surface reflectances from which the final end user products are derived The topic of radiometric validation is growing rapidly in importance both because of the advent of operational satellite missions for routine environmental monitoring and because of the rapid expansion in the number of satellite missions including CubeSat constellations with limited cal val resources This enhanced need for radiometric validation data covering a wide VIS NIR SWIR range e.g. 380-2400nm preferably with a hyperspectral resolution must be met by new techniques and hardware particularly ground based automated radiometry

Google Apps: The Missing Manual Nancy Conner, 2008-05-27 Among its many amazing applications Google now has web based alternatives to many of the applications in Microsoft Office This comprehensive and easy to follow new book enables you to explore Google's new office applications in detail Once you do you'll be in good company more than 100 000 small businesses and some corporations are already looking to take advantage of these free Google offerings *Google Apps: The Missing Manual* teaches you how to use three relatively new applications from Google Docs and Spreadsheets which provide many of the same core tools that you find in Word and Excel and Google Calendar and Gmail the applications that offer an alternative to Outlook This book demonstrates how these applications together can ease your ability to collaborate with others and allow you access

to your documents mail and appointments from any computer at any location Of course as remarkable as these applications are Google s office suite is definitely a work in progress Navigating what you can and can t do and more importantly understanding how to do it isn t always easy And good luck finding enough help online Google Apps The Missing Manual is the one book you need to get the most out of this increasingly useful part of the Google empire This book Explains how to create save and share each of Google s web based office applications Offers separate sections for Docs and Spreadsheets Google Calendar and Gmail Demonstrates how to use these applications in conjunction with one another Gives you crystal clear and jargon free explanations that will satisfy users of all technical levels Many of you already use Gmail but do you know its full potential Do you know how you can increase its power by using Gmail with Doc and Spreadsheets and Google Calendar You ll find out with Google Apps The Missing Manual You ll also come to understand why large corporations such as General Electric and Proctor Gamble are taking a long hard look at these applications
