**Moving Money** Robert E. Litan, Martin Neil Baily, 2009-12-01 Once we paid for things with bills coins or checks Today we pay with zeroes and ones digital entries on credit and debit cards or electronic messages sent over the Internet In Moving Money distinguished analysts explore this trend its development and likely future and the ramifications of this transformation This is a book about money as a medium of exchange in the past in the present but particularly in the future What forms has money taken over the years Moreover how have those means of payment changed in recent years and how will they develop in the future And what if anything should policymakers do to facilitate those changes or at least allow them to develop and mature Brookings economists Robert E Litan and Martin Neil Baily and a distinguished group of experts dissect these issues and peer into the future of consumer payments The landscape of the consumer payments industry will be shaped at least in part by public policies Historically governments have had monopolies on the manufacture of money Any form of payment clearly requires trust on the part of both the seller and the buyer and the government must establish and enforce laws to secure this relationship More controversial is the issue of whether and to what extent government is also needed to protect the market in private sector payments systems Why do these issues matter The payments industry is a large and important sector of developed economies In the United States private sector payments providers generate approximately 280 billion a year in revenue while the government invests substantial resources into making money minting coins and printing bills or

moving it via checks and various electronic transfers And the way we pay for things influences our purchases what we spend money on how much we spend and where we spend it Thus the future of consumer payments is intertwined with the health of national economies Contributors Martin Neil Baily Brookings Thomas P Brown O Melveny Myers Kenneth Chenault American Express Company Vijay D Silva McKinsey and Company Nicholas Economides New York University David S Evans Market Platform Dynamics Robert E Litan Brookings and Kaufmann Foundation Drazen Prelec Massachusetts Institute of Technology Richard Schmalensee Massachusetts Institute of Technology Life Admin Hacks Mia Northrop, Dinah Rowe-Roberts, 2022-01-01 A super practical guide to cleaning up your admin load and freeing up head space AUSTRALIAN BUSINESS BOOK AWARDS 2022 FINALIST You have no idea what s for dinner tonight You need a gift for that party next week You still haven t consolidated your super You re out of contract on your phone and paying who knows what Those cupboards won t declutter themselves The kids need a plan for the next school holidays It s time to get the gutters cleaned You still haven t made a will Sound familiar Then this is the life admin guide you ve been waiting for Life admin can t be eliminated but it can be minimised automated and better shared within families This no nonsense book outlines a clear system to transform your life admin into managed order helps you share the mental load with others gives you game changing tools and small practical steps to follow breaks down life admin into Two Minutes Too Easy Ten Minute Time Killer or Hour of Power tasks shows you the fastest ways to shop around for new providers lets you focus on your major pain points or do a complete life admin makeover Working parents Mia and Dinah have marshalled their professional expertise in innovation finance design thinking and operations to research best practices trial the tech and craft the most efficient processes to optimise their own life admin The result No more overwhelm way more spare time and thousands of dollars saved Now it s your turn PRAISE This book is life changing Mia and Dinah s practical wise and clever advice will help you to start important conversations with your partner or children around the day to day tasks that have shackled women for centuries Tracey Spicer author and broadcaster My stress levels subsided from the opening page Helen McCabe founder FUTURE WOMEN and former editor in chief The Australian Women s Weekly Life Admin Hacks is for any woman who has ever felt completely squashed by the mental load of modern life It will teach you how to streamline and conquer all the boring bits so you can get on with the actual fun of living It s basically Mrs Beeton s Guide to Household Management for modern women and every home needs a copy Bron Maxabella Mandile publisher MUMLYFE This book flips the switch on life admin as we know it and the perpetual expectation on women to do it all This book will streamline your life and support you to share the sometimes crippling mental load Tarla Lambert WOMEN S AGENDA I absolutely love this book and I think it s essential for ambitious and working women It spells out solutions to life admin rather than just lamenting the problem Game changing Mia and Dinah show you how to take small steps with big impact They lay out the importance of sharing the load when it comes to admin as well as domestic duties It breaks down the intersection of parenting household duties and life
