Joomla!* Dan Rahmel,2007-10 Provides information on using the open source content management system used to manage
data on the World Wide Web covering such topics as creating Joomla expressions using Ajax technology and adopting design
patterns and incorporating source code control **Performing Media Activism in the Digital Age** Neil
Alperstein,2021-07-31 Performing Media Activism in the Digital Age breaks new ground by conceptualizing activism as a
performance extending beyond public space and the moment of public gatherings to consider the more extended view of
social or political movements as mediated social connections The book utilizes primary data extracted from social media
platforms by applying a social network analysis SNA approach to the people organizations and media that are trying to
advance their particular agendas with an eye toward a better understanding of the ways in which social movements operate
in a networked society The goal of social network analysis is to identify social structures within a movement such as
communities or clusters and it seeks to locate influence within those structures Social network analysis as applied to media

activism represents an interdisciplinary field that encompasses social psychology sociology as well as graph theory which should suggest this book will be of interest to scholars and students in these and related fields In the digital age social network analysis represents a paradigm shift as analytical and data visualization tools can be applied in an interdisciplinary manner By combining data science and sociology or cultural anthropology one has the means to visualize networks of individuals and organizations engaged in a social movement to see how movements are organized structured into communities clusters and niches and to visualize power structures within social movements to see who is influencing a network over extended periods of time

Advances in Intelligent Data Analysis XIX Pedro Henriques Abreu, Pedro Pereira Rodrigues, Alberto Fernández, João Gama, 2021-04-12 This book constitutes the proceedings of the 19th International Symposium on Intelligent Data Analysis IDA 2021 which was planned to take place in Porto Portugal Due to the COVID 19 pandemic the conference was held online during April 26 28 2021 The 35 papers included in this book were carefully reviewed and selected from 113 submissions The papers were organized in topical sections named modeling with neural networks modeling with statistical learning modeling language and graphs and modeling special data formats

Electronic Hive Minds on Social Media: Emerging Research and Opportunities Hai-Jew, Shalin, 2019-05-31 Researchers have harnessed the flood of personal information and opinions shared on social media platforms in a variety of ways People communicate not only what they imagine they are purposely sharing but also unintentionally leak information which allows others to glimpse a sense of the subconscious and unconscious at a macro level Electronic Hive Minds on Social Media Emerging Research and Opportunities explores various research techniques to profile the electronic hive mind around social topics as expressed on various modalities of social media from human bot and cyborg social media accounts and proposes new research methods for harnessing public data from social media platforms Highlighting topics such as knowledge sharing swarm intelligence and social psychology this publication is designed for researchers social psychologists practitioners and students in marketing communications mass media and similar fields
