Amazon Case Study. "The Best Marketing Strategies Aren't Top Down, They're Outside In" Sixbert Sangwa, 2021-05-25. Case Study from the year 2017 in the subject Business economics. Offline Marketing and Online Marketing grade 78. University of South Wales Business School course Strategic Marketing language English abstract. This work uses Amazon as a case study organization to criticize the statement "The best marketing strategies aren't top down, they're outside in" starting with the customer's needs and wants. It makes use of different academic literatures to evaluate how the customer voice drives strategic marketing decisions in this organization. In its history, the company's success has been grounded on its effective strategic planning, which is purely customer-oriented. The analysis of the company's marketing strategy has shown that Amazon enjoys the advantages of the web technology, which the company is hyper-dependent on. However, due to putting customer first, the company has also opened some physical outlets in different locations where Amazon applies a 4Ps Marketing strategy besides segmentation and positioning. Although the company has developed its strengths and positioned itself as a global giant, it was advised to focus on four core elements of marketing mix since all other companies are striving to become customer-oriented and different. Offline companies are coming online, which gradually increases the competition.
