**The Smartphone Society** Nicole Aschoff, 2020-03-10 Addresses how tech empowers community organizing and protest movements to combat the systems of capitalism and data exploitation that helped drive tech's own rise to ubiquity. Our smartphones have brought digital technology into the most intimate spheres of life. It's time to take control of them, repurposing them as pathways to a democratically designed and maintained digital commons that prioritizes people over profit. Smartphones have appeared everywhere seemingly overnight since the first iPhone was released in 2007, the number of smartphone users has skyrocketed to over two billion. Smartphones have allowed users to connect worldwide in a way that was previously impossible, created communities across continents and provided platforms for global justice movements. However, the rise of smartphones has led to corporations using consumers' personal data for profit, unmonitored surveillance, and digital monopolies like Google, Facebook, and Amazon that have garnered control over our social, political, and economic landscapes. But people are using their smartphones to fight back. New modes of resistance are emerging, signaling the possibility that our pocket computers could be harnessed for the benefit of people, not profit. From helping to organize protests against the US-Mexico border wall through Twitter to being used to report police brutality through Facebook Live, smartphones open a door for collective change.

*An Influencer's World* Caroline Baker, Don Baker, 2023-06-26 What is the influencer lifestyle? How do influencers win their fight for relevance and create a brand that catches fire while still leading an authentic, healthy life? Influencing is a business built around likes and hate, which can take a huge psychological toll on those who choose to play the game. *An Influencer's World* pulls back the curtain and shines a light on the often misunderstood realities of this dynamic industry. Featuring dozens of interviews with trending influencers, CEOs, leading industry insiders, brands, mental health professionals, and celebrities, this book provides an unconventional look at both the business side of influencing and the personal lives of influencers and creators. INTERVIEWEES INCLUDE Isabella Avila (17.7m on TikTok), Jacques Bastien (cofounder SHADE), Mark Cuban (8.6m on Twitter), Mary Fitzgerald (1.8m on Instagram), GloZell Green (4.6m on YouTube), Tim Karsliyev (1.7m on Instagram), Kevin Kreider (431k on Instagram), Max Levine (cofounder Amp Studios), Cindy Pham (468k on YouTube), Michael Schweiger (CEO Central Entertainment Group), LaToya Shambo (CEO founder Black Girl Digital), Joshua Suarez (14.4m on TikTok).

**The Digital Evangelicals** Travis Warren Cooper, 2022-08-02 When it comes to evangelical Christianity, the internet is both a refuge and a threat. It hosts Zoom prayer groups and pornographic videos, religious revolutions, and silly cat videos. Platforms such as social media, podcasts, blogs, and digital Bibles all constitute new arenas for debate about social and religious boundaries, theological and ecclesial orthodoxy, and the internet's inherent danger and value. In *The Digital Evangelicals*, Travis Warren Cooper locates evangelicalism as a media event rather than as a coherent religious tradition by focusing on the intertwined narratives of evangelical Christianity and emerging digital culture in the United States. He focuses on two dominant media traditions: media sincerity (immediate and direct interpersonal

communication and media promiscuity communication with the primary goal of extending the Christian community regardless of physical distance Cooper whose work is informed by ethnographic fieldwork traces these conflicting paradigms from the Protestant Reformation through the rise of the digital and argues that the tension is culminating in a crisis of evangelical authority What counts as authentic interaction Who has authority over the circulation of information While many studies claim that technology influences religion The Digital Evangelicals reveals how Protestant metaphors and discourses shaped the emergence of the internet and explores what this relationship with global new media means for evangelicalism
