From Telenovelas to Netflix: Transnational, Transverse Television in Latin America Joseph Straubhaar, Melissa Santillana, Vanessa de Macedo Higgins Joyce, Luiz Guilherme Duarte, 2021-12-06 This book is about television in Latin America Its national and regional industries create most television programming there within genres developed over time in the region However part of the programming has always come from the U S Europe and elsewhere With cable satellite and now streaming TV that inflow of foreign programming has increased substantially While many in the audience still prefer national or regional programs for their cultural proximity an increasing number among the upper middle and middle classes particularly the young are turning to the new foreign services like Netflix Amazon and Disney for class distinction cosmopolitanism or other motives Among the television industries global regional and national actors are creating a variety of programs and channels broadcast pay TV and streaming to segment and appeal to different parts of the audience

Max Lilienthal, American Rabbi Max E. Lilienthal, David Philipson, 1915 **When Max Came** Edna Adelaide Brown, 1914 *Unsteady Viscous Flows* Demetri P. Telionis, 2012-12-06 Most of the fundamental concepts of unsteady viscous flows have been known since the early part of the century However the past decade has seen an unprecedented number of publications in this area In this monograph I try to connect materials of earlier contributions and synthesize them into a comprehensive entity One of the main purposes of a monograph in my opinion is to fit together in a comprehensive way scattered contributions that provide fragmented information to the readers The collection of such contributions should be presented in a unified way continuity of thought and logical sequence of the presentation of ideas and methods are essential The reader should be able to follow through without having to resort to other references something that is unavoidable in the case of a research paper or even a review paper Many of the solutions discussed in the literature address specific practical problems In fact in the process of collecting information I discovered independent lines of investigations dealing with the same physical problem but inspired by different practical applications For example I found that two groups of investigators have been studying independently the response of a viscous layer to a harmonic external disturbance One group is concerned with mass transport and the transport of sediment over the bottom of the ocean and the other is interested in the aerodynamics of lifting surfaces in harmonically changing environments *Issues for Debate in American Public Policy* CQ Researcher, 2021-09-14 Written by award winning CQ Researcher journalists this annual collection of nonpartisan and thoroughly researched reports focuses on 16 hot button policy issues The Twenty Third Edition of *Issues for Debate in American Public Policy* promotes in depth discussion facilitates further research and helps readers formulate their own

positions on crucial policy issues And because it is CQ Researcher the policy reports are expertly researched and written showing readers all sides of an issue Because this annual volume comes together just months before publication all selections are brand new and explore some of today s most significant American public policy issues including Infrastructure and Biden The Future of Unions Corporate D Health and Society Domestic Terrorism and Much More **A Frenchman in America, by Max O'Rell** Max O'Rell,1891 Entrepreneurial New Venture Skills David C.
