The Time Regulation Institute:

The Time Regulation Institute Ahmet Hamdi Tanpınar, 2014-01-07 A literary discovery an uproarious tragicomedy of modernization in its first ever English translation Perhaps the greatest Turkish novel of the twentieth century being discovered around the world only now more than fifty years after its first publication The Time Regulation Institute is an antic freewheeling send up of the modern bureaucratic state At its center is Hayri Irdal an infectiously charming antihero who becomes entangled with an eccentric cast of characters a television mystic a pharmacist who dabbles in alchemy a dignitary from the lost Ottoman Empire a clock whisperer at the Time Regulation Institute a vast organization that employs a hilariously intricate system of fines for the purpose of changing all the clocks in Turkey to Western time Recounted in sessions with his psychoanalyst the story of Hayri Irdal's absurdist misadventures plays out as a brilliant allegory of the collision of tradition and modernity of East and West infused with a poignant blend of hope for the promise of the future and nostalgia for a simpler time For more than seventy years Penguin has been the leading publisher of classic literature in the English speaking world With more than 1 700 titles Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors as well as up to date translations by award winning translators

The Time Regulation Institute Ahmet Hamdi Tanpınar, 2001 Old Istanbul aristocrats Turkish teahouses imperial diamonds and great and humble mosques are juxtaposed with the almost non descriptive portrayals of neighborhood friendships family relations and local public figures who could be found in any city in Turkey or perhaps any Eastern setting where the old way of life adopts new and Western counterparts Ahmet Hamdi Tanpınar's portrayal of modern post Ottoman Turkey weaves a theater of the absurd suggestively representative of the early days of the young Republic

Book jacket **Grammatology and Literary Modernity in Turkey** Nergis Ertürk, 2011-10-19 The 1928 Turkish alphabet reform replacing the Perso Arabic script with the Latin phonetic alphabet is an emblem of Turkish modernization Grammatology and Literary Modernity in Turkey traces the history of Turkish alphabet and language reform from the mid nineteenth to the mid twentieth century examining its effects on modern Turkish literature In readings of the novels essays and poetry of Ahmed Midhat Recizade Mahmud Ekrem Mer Seyfeddin Ahmet Hamdi Tanpınar Peyami Safa and Nâzım Hikmet Nergis Ertürk argues that modern Turkish literature is profoundly self conscious of dramatic change in its own historical conditions of possibility Where literary historiography has sometimes idealized the Turkish language reforms as the culmination of a successful project of Westernizing modernization Ertürk suggests a different critical narrative one of the consolidation of control over communication forging a unitary nation and language from a pluralistic and multilingual society
