Present Courtney Ellis, 2023-01-01 Enjoy an engaging thoughtful and practical journey packed with humor compassion and scripture Learn to be fully present and all in right where you are and reap the benefits that come with it Present is an invitation to a deeper richer and quieter life with God So often we sleepwalk through our days but there is a deep biblical precedent and tremendous gift in practicing awareness right where we are Present will help you discover Key reasons you might experience transience How to press in where you re planted when called to that How to cope and thrive in seasons of pruning and frustration How to know when it s time to move on And much more New jobs new schools new churches and new cities New colleagues and friends that come and go Life is constantly moving and it s common to feel uprooted Your calendar is full and life is frenetic but it still feels like something big is missing You long for a deeper connection with God and those around you but you re not sure how to get there Whether you re prone to efficiently flit from one engagement to the next like a hummingbird or you re more like a majestic Sequoia with the longing to thrive where your roots are Present is here to help you form more meaningful connections In a world marked by transience envy and rootlessness committing to staying put is a radical unusual act Hungry for rootedness Courtney Ellis and her family decided to truly commit to a place and a people God had given them for a season to grow some deep roots and discover what it would mean to be all in Through winsome storytelling Courtney demonstrates that there is tremendous growth when we stop holding a community at arms length and open ourselves to the blessing of stability the grace of limits and the joy of presence This book is divided into three major sections with chapters devoted to each of the gifts that come with our increased attention to being all in fully present right where we are Key Features of Present Relatable Whether you re starting a new chapter of your life or firmly planted or somewhere in between Present will meet you where you are Packed with thoughtful insights and wit Courtney condenses solid biblical truths into everyday gems that are hidden all around you Practical Rather than just reading Courtney invites you to dive deeper with thoughtful reflection questions and simple practices to apply these key principles to your own life Change begins from the inside out and you can start being present now Scripturally Guided Enjoy having biblically based guidance on how to connect with others grow where you re planted know when God is calling you to transition and more Join Courtney Ellis for a thoughtful funny and realistic exploration of stability limit and presence as means of grace Journey deeper into the heart of God that calls us to cultivate community being present to what God has placed before us and discovering the gifts of the present Explore the ways borders and boundaries in our lives are for our good When we are able to say This is my place and these are my people and then like Ruth really commit beautiful things can happen Present is perfect for Individual and group study Book clubs Discipleship Bible studies Pastors Church libraries Gifts Counseling groups Parents And more

Me and Banksy Tanya Lloyd Kyi, 2020-01-07 A Banksy style protest against cameras in classrooms brings a group of middle grade students together For fans of Rebecca Stead Susin Nielsen and Gordon Korman

Dominica's private school is covered in cameras and someone is hacking into them and posting embarrassing moments for the whole school to see. Like Ana picking her nose. When Dominica quickly changes her shirt from inside out in what she thinks is the privacy of a quiet corner in the library she's shocked and embarrassed to discover a video has captured this and is currently circulating amongst her schoolmates. So mortifying especially since over the past three years they've had a half dozen school talks about social media safety. Who has access to the school security cameras and why are they doing this? Dominica and her best friends Holden and Saanvi are determined to find out and in the process start an art-based student campaign against cameras in the classroom.

Mobile Deep Learning with TensorFlow Lite, ML Kit and Flutter Anubhav Singh, Rimjhim Bhadani, 2020-04-06 Learn how to deploy effective deep learning solutions on cross platform applications built using TensorFlow Lite ML Kit and Flutter. Key Features: Work through projects covering mobile vision, style transfer, speech processing and multimedia processing. Cover interesting deep learning solutions for mobile. Build your confidence in training models, performance tuning, memory optimization and neural network deployment through every project. Book Description: Deep learning is rapidly becoming the most popular topic in the mobile app industry. This book introduces trending deep learning concepts and their use cases with an industrial and application focused approach. You will cover a range of projects covering tasks such as mobile vision, facial recognition, smart artificial intelligence, assistant, augmented reality and more. With the help of eight projects you will learn how to integrate deep learning processes into mobile platforms iOS and Android. This will help you to transform deep learning features into robust mobile apps efficiently. You'll get hands on experience of selecting the right deep learning architectures and optimizing mobile deep learning models while following an application oriented approach to deep learning on native mobile apps. We will later cover various pre-trained and custom built deep learning model based APIs such as machine learning ML Kit through Firebase. Further on the book will take you through examples of creating custom deep learning models with TensorFlow Lite. Each project will demonstrate how to integrate deep learning libraries into your mobile apps right from preparing the model through to deployment. By the end of this book you'll have mastered the skills to build and deploy deep learning mobile applications on both iOS and Android. What you will learn: Create your own customized chatbot by extending the functionality of Google Assistant. Improve learning accuracy with the help of features available on mobile devices. Perform visual recognition tasks using image processing. Use augmented reality to generate captions for a camera feed. Authenticate users and create a mechanism to identify rare and suspicious user interactions. Develop a chess engine based on deep reinforcement learning. Explore the concepts and methods involved in rolling out production ready deep learning iOS and Android applications. Who this book is for: This book is for data scientists, deep learning and computer vision engineers and natural

I Learn Addition Using Math-Chess-Puzzles Connection** Frank Ho,Amanda Ho,2015-12-14 What s wrong with the traditional drill computation From tutoring point of view there is nothing wrong to give them to children for practice on fluency and grasp of basics However there is something wrong form children s point of view that is they are boring dull and not fun Why do children feel that way Well the time has changed but the format of traditional computation worksheets has not caught up with the pace of the society The future belongs to a generation who understands how to process information and the information might include digits bytes numbers graphics images languages symbols equations etc Children today might chat with others on the internet while downloading or uploading files and viewing movie clips at the same time Multi tasking and the multi way of processing information seem to have come as a second nature to children but is our computation format reflecting the way that children are living today Certainly not this is one reason why children feel so bored and lost interest to continue to work on the same old style of computation worksheets These simple monotonic basic number facts computation worksheets are no longer reflecting the real world which the young generation is facing today or will be living in the future The computing world children are facing today is much like a rich tapestry where diversified fabrics and colours are integrated Children today are absorbing not just numbers but an array of information like image sound music symbols spatial information or even abstract ideas all bundled together and delivered through many types of media Children today are not happy just working on pure number drill without any other stimulus or motivator After realizing the importance of having fun while learning Ho Math Chess has been embarked on an important teaching philosophy that is to integrate chess and puzzles into math worksheets so that children can learn math while having fun Ho Math Chess has created a series of special printable workbooks to have a synergetic effect by integrating or converging arithmetic basic number facts chess mazes and information processing all in one worksheet This is accomplished through Ho Math Chess own trademarked proprietary technologies such as Symbolic Chess Language SCL Frankho Puzzle Frankho Maze and the Ho Math Chess training set With this invention of math chess and puzzles integrated worksheets a child is acting as a data warehouse manager and sorts matches or classifies data in an information environment which simulates a cell phone screen using an incredible variety of learning concepts namely chess symbols spatial relation logic comparison tables patterns mazes computing etc by networking all kinds of information together The learning process is much like to search information using the internet Only when children have successfully followed instructions using SCL and as a result created a question themselves can a solution be found at last Ho Math Chess workbook is a multi function workbook it trains children not only their basic computing ability but also trains them to be an astute data warehouse manager or an excellent data miner by developing their problem
