Neoliberal Feminism and the Discourse of Self-Improvement Giuliana Ferri, 2026-04-30 Neoliberal Feminism and the Discourse of Self Improvement utilises feminist critical discourse analysis to examine the language and narratives within selfhelp literature targeted at women Giuliana Ferri critically explores the discourse of self improvement focusing on how neoliberal values of empowerment and individual fulfilment have been co opted by elite feminism as a technology of the self She unpacks how this discourse constructs an idealised image of the empowered woman one who is portrayed as capable of overcoming patriarchy through the affirmation of innate strength and resilience Drawing on Marxist feminism and feminist social reproduction theory the book highlights how neoliberal feminism markets women as entrepreneurs badass feminists and successful working mothers all while obscuring the realities of increasing work precarization and flexibilisation in post industrial societies Through its feminist critical discourse analysis the book reveals how these seemingly empowering narratives shift the responsibility for systemic change onto individuals rather than positioning feminism as a collective anti capitalist movement for liberation By integrating applied linguistics with Marxist feminism and social reproduction theory this text provides a unique interdisciplinary perspective making it a key reading for scholars and students of language gender and economic systems

How to Judge a Book by its Cover Kate Cuthbert, 2025-12-10 Combining both an industry and research focus How to Judge a Book by its Cover not only judges books by their covers but provides a methodology for others to do the same Despite book titles and book covers having been identified defined and discussed as paratexts beginning first with Gerard Genette and by many paratextual and publishing scholars since there is currently no methodology or defined vocabulary for the analysis and discussion of their creation the intent and effect of their structure and their constituent elements As these paratexts become further and further removed from their texts then like texts they can and should be studied especially as literature is inextricably embedded in industrial and social currents How to Judge a Book by its Cover looks more deeply at book covers and book titles two paratexts that are of broad academic interest but crucial to the placement marketing and commerce of the publishing industry Bringing together paratextual studies publishing studies and media studies visual design analysis and the world of advertising this work marries academic rigour with industry experience to first define the role that book covers and book titles play and then articulate a methodology for their analysis By identifying intent behind book covers and book titles defining the elements that may be achieved in this intent and providing opportunities to measure their success both scholars and industry professionals will have a clear and robust vocabulary in discussions of these key marketing paratexts This book can be used for students and researchers who are interested in media studies paratextual studies publishing internet studies postcolonial studies and popular fiction studies
