

A low-angle shot of a modern glass skyscraper against a blue sky with scattered white clouds. The building's facade is composed of a grid of dark metal frames and large glass panels. The OpenAI logo, a white knot-like symbol, is mounted on the glass. To its right, the words "OpenAI" are displayed in a clean, white, sans-serif font. The sun is visible behind the glass, creating a bright, circular glow and casting a soft shadow of the logo and text onto the panels below. A faint, semi-transparent watermark "dreamstime" is visible across the middle of the image.

ChatGPT in Scientific Research and Writing Jie Han, Wei Qiu, Eric Lichtfouse, 2024-09-13 Most scientists are constantly under pressure for reading essential literature designing new experiments writing successful proposals and papers and meeting deadlines However imagine that your brain is connected to the entire human knowledge and can extract instantly essential information for discovery Imagine that research tasks that took days to months can now be done within few seconds This is not science fiction anymore since the onset of generative artificial intelligence tools such as ChatGPT This book explains concisely and simply how to use ChatGPT for identifying new results crafting titles editing language interpreting figures creating visuals and refining methods ChatGPT even allows for brainstorming designing experiments writing proposals responding to reviewers and evaluating research papers Written for researchers with no background in coding or prompt engineering this book provides the skills necessary to navigate the changing landscape of scientific research In particular you will learn how to leverage ChatGPT's unique capabilities to generate ideas streamline literature reviews and craft compelling narratives In short this book empowers you to unlock the potential of ChatGPT boosting productivity and take your scientific research and writing to new heights *The Intelligent Machine: An Introduction to Artificial Intelligence* Dr. Ashwani Kumar, Mr. Vineet Kumar, Dr. Mohit Kumar, 2025-07-09 [Silicon Empires](#) Nick Srnicek, 2025-12-23 Since the emergence of ChatGPT generative AI has been heralded as a technology poised to revolutionize our world But beyond the hype and hyperbole who truly wields power over this transformative technology In *Silicon Empires* Nick Srnicek explores the geopolitical economy of artificial intelligence revealing how a handful of powerful corporations and states are engaged in a monumental struggle to control its future Srnicek moves beyond the headlines to lay bare the elaborate strategies that these silicon empires from tech giants to great powers are deploying to capture the immense value of AI This incisive analysis uncovers the deep seated tensions between corporate ambitions and national interests and the profound consequences of this new era of technological competition As the race for AI supremacy accelerates Srnicek compellingly demonstrates that the decisions being made in the boardrooms of Silicon Valley and the halls of government will shape the distribution of wealth and power on a global scale for decades to come **Artificial Intelligence in Architecture and the Built Environment** Michal Sourek, 2025-01-22 Imagine if every architect had an apprentice who could consistently observe and understand their intentions take over routine tasks and monitor technical environmental and economic constraints This apprentice would continually improve freeing the architect to concentrate on truly creative work This book outlines a plan to turn this vision into reality It evaluates the development of artificial intelligence from its inception to the present focusing on the last two decades of applying AI in architectural design and planning the current state of architectural practice is also examined Integrating architecture computer science AI robotics economics law neurobiology and philosophy the vision is built on three key premises i authentic poetic creativity that transcends

parameterization and algorithmizing ii innovative learning strategies and training approaches not yet applied concerning architectural design and iii the convergence of architecture's inherent spatiality with virtual reality technology and new theories of human thinking and intelligence poised for implementation in machine learning

Four Battlegrounds Paul Scharre, 2023-02-28 An NPR 2023 Books We Love Pick One of the Next Big Idea Club's Must Read Books An invaluable primer to arguably the most important driver of change for our future P W Singer author of *Burn In* An award winning defense expert tells the story of today's great power rivalry the struggle to control artificial intelligence A new industrial revolution has begun Like mechanization or electricity before it artificial intelligence will touch every aspect of our lives and cause profound disruptions in the balance of global power especially among the AI superpowers China the United States and Europe Autonomous weapons expert Paul Scharre takes readers inside the fierce competition to develop and implement this game changing technology and dominate the future *Four Battlegrounds* argues that four key elements define this struggle data computing power talent and institutions Data is a vital resource like coal or oil but it must be collected and refined Advanced computer chips are the essence of computing power control over chip supply chains grants leverage over rivals Talent is about people which country attracts the best researchers and most advanced technology companies The fourth battlefield is maybe the most critical the ultimate global leader in AI will have institutions that effectively incorporate AI into their economy society and especially their military Scharre's account surges with futuristic technology He explores the ways AI systems are already discovering new strategies via millions of war game simulations developing combat tactics better than any human tracking billions of people using biometrics and subtly controlling information with secret algorithms He visits China's National Team of leading AI companies to show the chilling synergy between China's government private sector and surveillance state He interviews Pentagon leadership and tours U S Defense Department offices in Silicon Valley revealing deep tensions between the military and tech giants who control data chips and talent Yet he concludes that those tensions inherent to our democratic system create resilience and resistance to autocracy in the face of overwhelmingly powerful technology Engaging and direct *Four Battlegrounds* offers a vivid picture of how AI is transforming warfare global security and the future of human freedom and what it will take for democracies to remain at the forefront of the world order

AI Revolution Tero Ojanperä, 2024-11-14 The AI Revolution is a practical guide to using new AI tools such as ChatGPT DALLE and Midjourney Learn how to multiply your productivity by guiding or prompting AI in various ways The book also introduces Microsoft Copilot Google Bard and Adobe Photoshop Generative Fill among other new applications ChatGPT reached a hundred million users in just two months after its release faster than any other application before This marked the advent of the generative AI era Generative AI models generate text images music videos and even 3D models in ways previously thought impossible for machines The book explains in an understandable manner how these AI models work The book provides examples of how AI increases productivity which professions are changing or disappearing and how job markets will

evolve in the coming years With this book you ll learn to recognize the opportunities and risks AI offers Understand what this change demands from individuals and companies and what strategic skills are required The book also covers legal questions caused by generative AI like copyrights data protection and AI regulation It also ponders societal impacts AI produces content thus influencing language culture and even worldviews Therefore it s crucial to understand by whom and how AI is trained The AI revolution started by ChatGPT is just the beginning This handbook is for you if you want to keep up with the rapid development of AI

United States of America V. Hopkins ,1980 **United States of America V.
