

# Six principles of political realism

---

- Politics is governed by objective laws; IR theory is a rational theory that reflects these laws
- Politics is an autonomous sphere, independent of economics and personal morality
- International politics is about national interests though these interests reflect the political and cultural context within which foreign policy is formulated
- The political ethics is different from the universal moral principles
- Particular nations cannot impose their national aspirations on other nations
- Pessimistic knowledge of human nature is in the centre of international politics
