XYZT Kristen Alvanson,2019-07-02 Genre defying fiction that accelerates cross cultural dialogue into a kaleidoscopic  
rush of sensory estrangements fairy tales and alien encounters There s really no difference between us and them so we re  
told Based on the author s experiences of living as an American in Iran Kristen Alvanson s XYZT is a wildly imaginative  
dramatization of the idea of a dialogue of civilizations and its potentially outlandish ramifications As part of an advanced  
technological test program volunteers are shuttled back and forth between the US and Iran hidden from the watchful eyes of  
immigration police and state bureaucracies Each is given a single opportunity to be received by a local host and to have a  
brief authentic experience of what it means to live as them before being transported back home But far from heralding the  
bliss of mutual recognition the experiment unleashes a series of displacements so disorienting that the fabric of reality begins  
to fray Ordinary people become entangled in extraordinary situations and everyday life bleeds into mythological encounters  
alternate universes and dark psychedelic journeys in alien lands where the real and the imaginary are indistinguishable A  
treasury of tales told from multiple perspectives and in a multiplicity of styles XYZT is an audacious cross genre experiment a  
firsthand memoir of what it means to see what they see and a science fictional nonstandard engagement with anthropology in

which cross cultural encounters take on all the unpredictable features of a contemporary fairy tale *New York ,1981*
