Sleep Hacks Cyber Monday Guide:

Cybersecurity for Hospitals and Healthcare Facilities Luis Ayala,2016-09-06 Learn how to detect and prevent the hacking of medical equipment at hospitals and healthcare facilities A cyber physical attack on building equipment pales in comparison to the damage a determined hacker can do if he she gains access to a medical grade network as a medical grade network controls the diagnostic treatment and life support equipment on which lives depend News reports inform us how hackers strike hospitals with ransomware that prevents staff from accessing patient records or scheduling appointments Unfortunately medical equipment also can be hacked and shut down remotely as a form of extortion Criminal hackers will not ask for a 500 payment to unlock an MRI PET or CT scan or X ray machine they will ask for much more Litigation is bound to follow and the resulting punitive awards will drive up hospital insurance costs and healthcare costs in general This will undoubtedly result in increased regulations for hospitals and higher costs for compliance Unless hospitals and other healthcare facilities take the steps necessary to secure their medical grade networks they will be targeted for cyber physical attack possibly with life threatening consequences Cybersecurity for Hospitals and Healthcare Facilities is a wake up call explaining what hackers can do why hackers would target a hospital the way hackers research a target ways hackers can gain access to a medical grade network cyber attack vectors and ways hackers hope to monetize their cyber attack By understanding and detecting the threats you can take action now before your hospital becomes the next victim What You Will Learn Determine how vulnerable hospital and healthcare building equipment is to cyber physical attack Identify possible ways hackers can hack hospital and healthcare facility equipment Recognize the cyber attack vectors or paths by which a hacker or cracker can gain access to a computer a medical grade network server or expensive medical equipment in order to deliver a payload or malicious outcome Detect and prevent man in the middle or denial of service cyber attacks Find and prevent hacking of the hospital database and hospital web application Who This Book Is For Hospital administrators healthcare professionals hospital healthcare facility engineers and building managers hospital healthcare facility IT professionals and HIPAA professionals
