H. Wilkinson,1999 **The Early Dynastic Period of Century** writer,2020-07-23 The Early Dynastic Period is a relatively recent designation in the history of Egyptology Just four decades ago Egypt s formative phase languished in scholarly obscurity little known little studied and barely acknowledged Alan Gardiner for instance in his otherwise magisterial history Egypt of the Pharaohs Gardiner 1961 included the period as something of an afterthought appended to the main text as an epilogue for the sake of completeness but clearly not thought fit to occupy pole position at the beginning of the great dynastic story Writing at the same time even the most devoted archaeologist of early Egypt Bryan Emery labeled the period somewhat dismissively and with more than a hint of embarrassment Archaic Egypt Emery 1961 For Gardiner Emery and other Egyptologists of their generation ancient Egypt proper in all its majesty and glory began with the pyramids What came before could be skipped over as a dark age meagrely attested in the archaeological and textual records and of no great consequence Early Dynastic Egypt Toby A. **Engineering and Construction in Egypt's Early Dynastic Period** Angela Sophia La Loggia,2015 Throughout history people have marvelled at the pyramids from the elemental beauty of the Step Pyramid of Djoser to the monumental scale and engineering achievement of the Great Pyramid in Giza The knowledge needed to build such grand monuments was vast but not acquired overnight The precursors to the pyramids the massive mud brick tombs of the First and Second Dynasties reveal a high degree of proficiency ingenuity and capability by the architects engineers and builders of that time These mud brick structures built almost five centuries before the Giza pyramids reveal a structured and well organised society with well developed construction and management skills In fact the construction time and labour force requirements in these earlier structures were efficient and small in comparison to ventures in the proceeding Dynasties It is through these structures and the development of the skills and diversity of industries required to sustain the building of them that the foundation for the economic and social development of future generations and the dawn of large scale stone construction was laid
