Does the UN Joint Program for Rural Women's Economic Empowerment (JP RWEE) deliver on its empowerment objectives? Quisumbing, Agnes, Gerli, Beatrice, Faas, Simone, Heckert, Jessica, Malapit, Hazel J., McCarron, Catherine, Meizen-Dick, Ruth Suseela, Paz, Florencia, 2022-07-16 This paper compares the empowerment impacts of the UN Joint Program for Rural Women s Economic Empowerment JP RWEE in Ethiopia Niger Nepal and Kyrgyzstan using the Abbreviated Women s Empowerment in Agriculture Index A WEAI We assess the extent of empowerment and gender parity and decompose the sources of disempowerment separately for men and women and for beneficiary and control groups We then estimate program impacts on A WEAI and its component indicators and assess whether estimated impacts are consistent with the activities implemented by the program We interpret the quantitative results in the light of the qualitative studies undertaken as part of the impact evaluation Despite the diversity in country and

cultural contexts in all four countries women are more disempowered than men although large proportions of men are themselves disempowered Excessive workload is the most common major contributor to disempowerment and so is lack of group membership The program had positive impacts on aggregate empowerment measures for program participants in Niger Nepal and Kyrgyzstan Nevertheless gender parity improved only in Nepal The group based approach was a clear contributor to women s empowerment in Ethiopia Nepal and Kyrgyzstan In Kyrgyzstan the GALS BALI approach contributed to impacts across almost all indicators of empowerment The positive impact of GALS and GALS BALI on men and women alike in Kyrgyzstan is consistent with emerging evidence that involving both men and women in gender transformative approaches rather than focusing on women alone may be key to effective and sustainable programs Although impacts on time use were insignificant in the quantitative study the qualitative work pointed out negative impacts emphasizing the unintended consequences of increased workload for women who participate in livelihood interventions

There is something visceral about ownership This is mine you can't have it This is mine you can share it This is ours Try to find it Contemporary literature and investigative journalism are showing that the scale of the problem of tax evasion money laundering organised crime terrorism bribery corruption and gross human rights abuses is vast Ownership specifically the quest to identify beneficial owners has been chosen by national and international regulators as the touchstone the litmus test in the fight back An owner by definition must possess something for which they are financially accountable But what is meant by ownership This book explains why ownership is pivotal to accountability and what ownership means in common law civil law and Shariah law terms It looks in detail at State regional and international transparency strategies and at an equally powerful global private counter initiative to promote beneficial ownership avoidance through the use of so called orphan structures Where there is no owner there is no accountability The distinction between privacy and legitimate confidentiality on the one hand and concealment on the other is explained with reference to commercial and trade law and practice principles of corporate governance and applicable business human rights This book introduces one further counter initiative the phenomenon of transient ownership made possible through the use of cryptocurrency and the blockchain The study concludes with a blueprint for action with recommendations addressed to states international organisations practitioners and other stakeholders *Access to Scientific Research* David J. Brown, 2015-11-13

The debate about access to scientific research raises questions about the current effectiveness of scholarly communication processes This book explores from an independent point of view the current state of the STM publishing market new publishing technologies and business models as well as the information habit of researchers the politics of research funders and the demand for scientific research as a public good The book also investigates the democratisation of science including how the information needs of knowledge workers outside academia can be embraced in future *The Economist*, 2010 **The Yearbook of Experts, Authorities and Spokespersons** Broadcast Interview Source, 2000 **Research EU.**, 2009 **Journal of Economic Literature**, 2007

For over two hundred years we have lived in a western made world one where the very notion of being modern was synonymous with being western This original and ground breaking new book argues that the twenty first century will be different With the rise of increasingly powerful non Western countries the west will no longer be dominant and there will be many ways of being modern In this new era of contested modernity the central player will be China Far from becoming a

western style society China will remain highly distinctive Continental in size and mentality and accounting for one fifth of humanity China is a civilization state whose characteristics attitudes and values long predate its existence as a nation state China is already having a far reaching and much discussed economic impact but its influence will be far greater than this China s rise signals the end of the global dominance of the western nation state and the rise of a world which it will shape in a host of different ways As it rapidly reassumes its traditional position at the centre of East Asia the old tributary system will be resurface in a modern form contemporary ideas of racial hierarchy will be redrawn and China s ages old sense of superiority will reassert itself China s rise will change the world as we know it from one made in the west to one increasingly shaped by China This profound and far sighted book explains for the first time the deeper meaning of China s arrival as a global power
