stay great without its iconic leader Many inside the company were eager to prove that Apple could be just as innovative as it had been under Jobs Others were painfully aware of the immense challenge ahead As its business has become more complex and global Apple has come under intense scrutiny much of it critical Maintaining market leadership has become crucial as it tries to conquer new frontiers and satisfy the public s insatiable appetite for insanely great products Based on over two hundred interviews with current and former executives business partners Apple watchers and others Haunted Empire is an illuminating portrait of Apple today that offers clues to its future With nuanced insights and colorful details that only a seasoned journalist could glean Kane goes beyond the myths and headlines She explores Tim Cook s leadership and its impact on Jobs s loyal lieutenants new product development and Apple s relationships with Wall Street the government tech rivals suppliers the media and consumers Hard hitting yet fair Haunted Empire reveals the perils and opportunities an iconic company faces when it loses its visionary leader

Smart Startups Catalina Daniels,James H. Sherman,2023-10-10 Two startup company founders and angel investors go inside eighteen companies founded by Harvard Business School graduates uncovering surprising lessons for success and unexpected pitfalls essential for aspiring entrepreneurs Conventional wisdom holds that the most successful entrepreneurs in the world are born with a genius for starting companies experience one lightning bolt moment of inspiration after another follow a tried and true process to scale to a billion dollars and attract deep pocketed investors at every turn The real story is a bit more unconventional and much more interesting Would be entrepreneurs Catalina Daniels and James Sherman hungry to study and apply the best practices of startups to their own ventures studied the nuts and bolts of entrepreneurship as classmates at Harvard Business School Years later after successfully founding and exiting several companies and as angel investors in start ups they were surprised to realize that their experiences greatly differed from what they had been taught in school HBS provided a world class education in the basics But there was so much they learned the hard way working in the trenches that looking back they wished they d known before starting up Inspired Daniels and Sherman interviewed eighteen HBS graduates and entrepreneurs about their experiences founding companies such as Blue Apron Rent the Runway Gilt and AdoreMe probing them about what they discovered along the way and what they wish they had known beforehand The authors bring these insights to life by showcasing the founders in their own words and giving readers the experience of chatting with these remarkable entrepreneurs over a cup of coffee No other book has unearthed advice from so many HBS entrepreneurs The result is wisdom that challenges assumptions destroys preconceived notions crystalizes hunches and articulates perceptions with a depth possessed by few people in the world Starting a business is hard Seventy percent of startups today fail after their seed round and less than ten percent achieve success for founders and investors Faced with such a daunting threshold aspiring entrepreneurs need all the advice wisdom and inspiration they can get Smart Startups is written for them a timeless record of essential knowledge that can help them avoid failure and achieve success

Team Genius Rich Karlgaard,Michael S.

Malone,2015-07-07 A groundbreaking book that sheds new light on the vital importance of teams as the fundamental unit of organization and competition in the global economy Teams we depend on them for both our professional success and our personal happiness But isn't it odd how little scrutiny we give them The teams that make up our lives are created mostly by luck happenstance or circumstance but rarely by design In trivial matters say a bowling team the leadership of a neighborhood group or a holiday party committee success by serendipity is already risky enough But when it comes to actions by fast moving start ups major corporations nonprofit institutions and governments leaving things to chance can be downright dangerous Offering vivid reports of the latest scientific research compelling case studies and great storytelling Team Genius shows managers and executives that the planning design and management of great teams no longer have to be a black art It explores solutions to essential questions that could spell the difference between success and obsolescence Do you know how to reorganize your subpar teams to turn them into top performers Can you identify which of the top performing teams in your company are reaching the end of their life span Do you have the courage to shut them down Do you know how to create a replacement team that will be just as effective without losing time or damaging morale And most important are your teams the right size for the job Throughout Rich Karlgaard and Michael S Malone share insights and real life examples gleaned from their careers as journalists analysts investors and globetrotting entrepreneurs meeting successful teams and team leaders to reveal some new truths The right team size is usually one fewer person than what managers think they need The greatest question facing good teams is not how to succeed but how to die Good chemistry often makes for the least effective teams Cognitive diversity yields the highest performance gains but only if you understand what it is How to find the bliss point in team intimacy and become three times more productive How to identify destructive team members before they do harm Why small teams are 40 percent more likely to create a successful breakthrough than a solo genius is Why groups of 7 2 150 and 1 500 are magic sizes for teams Eye opening grounded and essential Team Genius is the next big idea to revolutionize business
