Read the short passage and answer the questions.

The Dog and the Shadow

It happened that a Dog had got a piece of meat and was carrying it home in his mouth to eat it in peace. Now on his way home, he had to cross a plank lying across a running brook. As he crossed, he looked down and saw his own shadow reflected in the water beneath. Thinking it was another dog with another piece of meat, he made up his mind to have that also. So he made a snap at the shadow in the water, but as he opened his mouth the piece of meat fell out, dropped into the water and was never seen more.

To Understand Ellin Oliver Keene, 2008 *To Understand* proposes a model that incorporates all aspects of literacy instruction and describes how teachers can focus on what matters most. Keene shows that when teachers target the most essential content they can help every student engage more deeply with texts and discover a passion for reading and learning. You'll learn to draw out students' intellectual interests and spark improvements in their literacy learning and comprehension even among students who struggle. You'll see that teaching the Outcomes and Dimensions of Understanding can help readers exceed expectations and also help broaden your vision of their capacity and energy for learning. Sweet, Catherine E. Snow, 2003-04-30 This practical book grows out of a recent report written by the RAND Reading Study Group (RRSG) which proposed a national research agenda in the area of reading comprehension. Here RRSG members have expanded on their findings and translated them into clear recommendations to inform practice. Teachers gain the latest knowledge about how students learn to comprehend texts and what can be done to improve the quality of instruction in this essential domain. From leading literacy scholars the book explains research-based ways to plan effective instruction for students at all grade levels. Meet the comprehension needs of English language learners. Promote adolescents' comprehension of subject area texts. Understand the complexities of comprehension assessment. Get optimal benefits from instructional technologies. And much more. *New Methods in Reading Comprehension Research* David E. Kieras, Marcel A. Just, 2018-04-17 Published in 1984 this volume presents methodologies for studying the ongoing psychological processes that occur as a person reads a text as well as discussing the major findings that these methodologies have produced to provide a handbook of reading comprehension research techniques. Focusing on the comprehension processes that occur when a person is reading rather than the representation that remains after the text has been read the methodologies use measures such as reading times that reflect ongoing processes rather than relying exclusively on conventional measures of memory performance such as recall. These methods make use of computer technology for rapid and flexible stimulus representation and data acquisition. This book will allow researchers and students to select appropriate methodologies to investigate a range of fascinating questions about reading comprehension. *Teaching Reading Comprehension to Students with Learning Difficulties, 2/E* Janette K. Handbook of Children's Literacy Terezinha Nunes, Peter Bryant, 2003-12-31 PETER BRYANT TEREZINHA NUNES The time that it takes children to learn to read varies greatly between different orthographies as the chapter by Sprenger Charolles clearly shows and so do the difficulties that they encounter in learning about their own orthography Nevertheless most people who have the chance to learn to read do in the end read well enough even though a large number experience some significant difficulties on the way Most of them eventually become reasonably efficient spellers too even though they go on make spelling mistakes at any rate if they are English speakers for the rest of their lives So the majority of humans plainly does have intellectual resources that are needed for reading and writing but it does not always find these resources easy to marshal What are these resources Do any of them have to be acquired Do different orthographies make quite different demands on the intellect Do people differ significantly from each other in the strength and accessibility of these resources If they do are these differences an important factor in determining children's success in learning to read and write These are the main questions that the different chapters in this section on Basic Processes set out to answer
