Digital Data Collection and Information Privacy Law Mark Burdon, 2020-04-23 In *Digital Data Collection and Information Privacy Law*, Mark Burdon argues for the reformulation of information privacy law to regulate new power consequences of ubiquitous data collection. Examining developing business models based on collections of sensor data with a focus on the smart home, Burdon demonstrates the challenges that are arising for information privacy's control model and its application of principled protections of personal information exchange.
