Debt Free Twice Shane Larson, 2026-03-21 Most debt books end with a victory lap This one tells the truth In fall 2018 software engineer Shane Larson s marriage ended and he discovered he was carrying 122 000 in consumer debt a truck loan student loans credit cards a furniture loan a HELOC and a personal loan On paper he looked middle class In reality he was broke Using the debt snowball method voluntary hardship and a strategic refinance of his rental property he eliminated every dollar of consumer debt in two years Then he spent four years pouring 4 000 a month into investments and watching his net worth climb past one million dollars Then in 2025 life happened He got married bought a car bought more land and woke up with 26 000 in new consumer debt This is the book that admits what other debt books won t getting out of debt is not a one time achievement It s a skill you practice for life What you ll find inside The exact debt balances interest rates and monthly payments every number no vague estimates Why the debt snowball beat the mathematically correct avalanche method How voluntary hardship became a source of strength not suffering The boring four year autopilot phase that built real wealth How a millionaire ends up carrying credit card debt at 21% interest The system and the AI tool that catches the cycle before it restarts This book is for you if You earn good money but somehow never have anything left You ve been in debt gotten out and found your way back You re tired of being lectured by people who got rich selling books about getting

rich You want real numbers from a real person not motivational platitudes You need a system that accounts for the fact that life keeps happening No wilderness metaphors No guru wisdom Just one engineer s honest story about money the wins the mistakes and the practice of staying free

Health Program Evaluation Patricia B. Campbell,Veronica G. Thomas,2026-03-10 This new title Health Program Evaluation Using a Culturally Responsive Racialized and Equity Perspective focuses on planning and implementing evaluation of public health programs through an equity focused and socially just lens While providing fundamental knowledge tools practical skills and theory authors Patricia B Campbell and Veronica G Thomas challenge the dominant paradigm in planning implementing health evaluation programs and the impact of power and privilege in evaluation The text offers a wealth of topics not found in similar texts such as social determinants of health in program planning and evaluation evaluation ethics in diverse cultural contexts ethical issues surrounding historical trauma and the challenges of dealing with the politicalization of evaluation Engaging features such as Case Studies Perspectives from Groundbreakers Reflect and Discuss questions and Activities incorporate practical and applied opportunities for learning
