Using a qualitative content analysis, the news stories of two German and two U.S. media outlets on Snapchat were examined over a period of three months, considering both long-established as well as new formats produced exclusively for Snapchat. The results show that the media outlets examined each take their own unique storytelling approaches on Snapchat. They range from intensive storytelling to short breaking news or even infotainment. The media outlets rely on both traditional storytelling methods and new multimedia opportunities for their news. However, it turns out that the newer formats on Snapchat are somewhat more experimental and exploit the possibilities of the platform more than the long-established ones. Vanity Fair, 2014
