## UNIT 1

### Q1:- Introduction?

Research Methodology refers to the systematic process used to collect, analyze, and interpret information to increase understanding of a topic or issue. It provides a framework for conducting research in a logical and scientific way. Research means a careful investigation or inquiry through search for new facts in any branch of knowledge. Derived from "re" (again) and "search" (to find), it means to search again — a systematic effort to gain new knowledge.

### Objectives of Research

- 1.To discover new facts or verify old ones.
- 2.To understand relationships between variables.
- 3.To find solutions to problems.
- 4.To develop new theories or test existing ones.
- 5.To aid decision-making and policy formulation.

### Research Process

- 1.Identification of the Problem – Define what to study.
- 2.Review of Literature – Study previous research.
- 3.Formulation of Hypothesis – Develop assumptions or propositions.
- 4.Research Design – Plan the structure of the research.
- 5.Data Collection – Gather relevant information.
- 6.Data Analysis & Interpretation – Use statistical tools to analyze data.
- 7.Conclusion & Recommendations – Draw results and suggest improvements.
- 8.Report Writing – Present findings in a systematic way.

### Research Design

A research design is the blueprint for conducting research — it specifies methods for data collection, measurement, and analysis.

### Types:

- 1.Exploratory
- 2.Descriptive
- 3.Experimental

## **Research Methodology Mcom:**

**Research Methodology: Concepts, Analytical Techniques, and Strategies** Dr. Rina Dave, Dr. Preethi Luhana, Dr. Arun Kumar Bharti, Dr. Anjela Swarndipika Kujur, 2025-02-14 Research Methodology Concepts Analytical Techniques and Strategies serves as a comprehensive guide to understanding and applying research methods across various academic fields. It is meticulously designed to support students, researchers, and professionals in mastering research techniques and methodologies. The book starts by introducing the fundamentals of research methodology, emphasizing its significance in advancing knowledge and solving problems. It covers essential topics such as formulating research questions, designing research processes, sampling techniques, data collection, and analysis. The text provides in-depth coverage of both qualitative and quantitative research methodologies, offering readers a balanced approach to conducting research. It also addresses the importance of ethical considerations, literature review, and plagiarism prevention, all crucial elements in the research process. Additionally, the book explores various statistical tools and software, providing practical insights into data analysis and hypothesis testing. What sets this book apart is its clear, structured presentation of complex concepts, making research methodology accessible to a wide audience. With detailed examples, step-by-step guides, and best practices, it ensures readers gain a comprehensive understanding of how to design, conduct, and present research in a rigorous and scholarly manner.

**Marketing Intelligence, Part B** Mudita Sinha, Arabinda Bhandari, Samant Shant Priya, Sajal Kabiraj, 2025-05-05 In the rapidly evolving world of business, technology isn't just an asset; it's the driving force behind innovation and success. This work is an indispensable resource for business leaders, marketers, and technologists who are eager to stay ahead of the curve.

**Micro and Macro Economics** Dr. Kahkasha Safi, Dr. Prashant Kumar, Miss Prasoon Gupta, 2024-04-16 This book covers MICRO and MACRO Economics theory, written for the students of BBA, B.COM, M.COM, and MBA. This book covers the syllabus of almost all the universities and institutions running with the courses. Although this book is for under-graduation, but it also covers up the syllabus of the post-graduation classes and even for the beginners of the subject who have knowledge on the priority basis in this field would find this book easy to understand. The graph and mathematical analysis has been used, but in a manner that even without a mathematics background, students will find it out more easy to grasp the points. The explanations and examples of the books are specifically written with the concepts of economics in the background and are not general cases on management. This will further enhance the value of the book in the future. I have a great pleasure in presenting this book to the faculties and students of this subject. Although there are many books available in the market on this subject, but my experience of about ten years shows that the students somehow miss out on the basic concept of the topic and therefore tend to consider this subject as very tough and difficult. Hence, in writing this book, special emphasis has been laid on the simplicity of language and presentation without losing the academic rigor of the contents. Even difficult topics have been presented in such a manner that the student understands it easily. Unnecessary details have been avoided.

**Anti-corruption Education and Peacebuilding** Jean de Dieu Basabose,2019-03-06 This study explores corruption in Rwanda and highlights the necessity of developing anti corruption education as a way of combating corruption It argues that an effective campaign against corruption should consider promoting anti corruption education with the aim of enabling present and future generations to maintain and live out the Ubupfura meaning trust respect ethical values Considering the link between anti corruption and peacebuilding efforts as explained in this study it is underlined that continuous efforts to raise such generations could undoubtedly move Rwandan society toward a sustainable peace Peacebuilders anti corruption agents and public policymakers are the primary beneficiaries of the study **Research Methodology: Theory & Techniques** Shiji R,Dr. Rajiv Kumar Agarwal,Ms. Kshitija Landge,Dr. Veer P. Gangwar, This book has been designed and written with huge efforts to provide the readers with detailed information over the research methodology along with its theory and techniques The book was written in an easy language to make it useful for all our readers The basic premise for writing this book is that research methods can be taught and learnt The emphasis is on developing a research outlook and a frame of mind for carrying out research **Modeling Economic Growth in Contemporary India** Bruno S.
