Speaking of Europe Kjersti Fløttum, 2013-04-16 Recent years have witnessed the European Union struggling to keep Europe together in increasingly difficult economic and political circumstances Communication within and about European institutions has become more challenging in this perplexing political environment demonstrating the complex nature of EU political discourse In order to highlight these complexities the contributors to this volume present different theoretical and methodological approaches to the analysis of diverse facets of EU discourse realized through a variety of linguistic and discursive phenomena The approaches represent rhetorical theory metaphor and conceptual theory cognitive and corpus linguistics lexical statistics polyphony logical semantics pragmatic and philosophical perspectives Through this multitude of perspectives the book complements existing approaches and suggests new

approaches in the study of political discourse **Europe's path to crisis** Tom Gallagher,2014-12-01 The EU's single currency crisis and the ensuing human costs have led to Europe's biggest disaster since 1945 This book examines each of its stages and the political and social impact and reveals the longer term origins of the crisis particularly the failure of elites to promote a genuine European partnership grounded in democratic values and a desire to co-exist with a national outlook The author defends an orderly retreat from the existing model of monetary union arguing that an alternative is needed in order for countries enduring a prolonged slump to recover and recommending that EU chiefs should also treat the nation state as a partner in a common emergency that needs to be overcome This jargon free insightful and long term analysis of a dangerous crisis is an invaluable book for academics and students alike It is also an effective tool for policy makers citizens and business people who require an accessible and in depth appraisal of a continuing catastrophe Europe Isn't Working Larry Elliott,Dan Atkinson,2016-05-24 Europe's center left is rapidly falling out of love with the European single currency Fifteen years after its creation British journalists Larry Elliott and Dan Atkinson assess its performance to show why Looking at a range of key indicators the authors show how the euro has failed to deliver on its promise of more jobs more growth and greater equality Instead it has undermined the European Union Elliott and Atkinson compare the European Central Bank to the Federal Reserve arguing that the architects of the euro subjugated economic measures to political considerations Consequently countries that didn't meet the economic convergence criteria were still allowed entry The end result is a dysfunctional currency union that is unable to cope with difficult economic circumstances Assessing the situations in Greece Germany Italy France Ireland and Iceland as well as Britain they show that the current policy of kicking the can down the road and hoping that something will turn up is proving increasingly unpopular with the currency's one time fans in progressive politics This engaging and accessibly written volume will be widely read by economists pundits and policymakers as Britain considers its future relationship with Europe **Europe Didn't Work** Larry Elliott,Dan Atkinson,2017-01-01 Portion of edition statement from page 4 of cover **Fascist Europe Rising** Rodney Atkinson,2001 Business World ,1996 **The Power of Global Capital** Michael H. Hyman,2004 No investor or business person can do without a clear understanding of what is going on out there in the now global business world This innovative book provides a way to stay informed and learn the economic indicators that affect global capital as well as the new financial rules carved out by the market Excellent for investing professionals and those involved in international business Hyman's *The Power of Global Capital* *New International Rules* *New Global Risks* spells out the rules of capital formation capital attraction the necessity to reduce taxes and the signs of impending financial problems The European Union Collective Christopher Story,2002 *Regaining Europe* George Irvin,2006 The international economist Professor George Irvin argues that if the Euro is to survive it needs to be run in a more sophisticated and flexible manner Irvin believes that when the governing structures of the Euro were set up in the early 1990s European governments were unduly influenced by monetarist ideas In consequence

they set up a banker's euro with excessive emphasis on combating inflation. Other economic goals such as growth and employment were subordinated to this preoccupation with monetary stability. Regaining Europe clearly sets out the mistakes made in setting up the Euro and argues that many of the EU's current political difficulties flow from these errors. It calls for national governments to reclaim European economic policy from the European Central Bank. Irvin believes that Europe's political crisis needs both a political and economic response with a more politically directed Eurozone leading to both economic and political success for the EU and a reversal of the stalemate created by the French and Dutch referenda.

European Dialogue, 1995 **The Question of Europe** Peter Gowan, Perry Anderson, 1997. The Question of Europe comprises essays by some of the leading authorities and commentators on Europe addressing issues such as EU expansion, Maastricht convergence criteria, democratic accountability and issues of federalism. *Flashpoint* Andrew Murray, 1997-01-15. Sam is pony mad and dreams of being a brilliant rider. But her nerves often get the better of her even when she discovers that she can actually talk to horses. Mulberry is a beautiful black pony but she's so grumpy no one wants to ride her. Except for Sam. Can Sam conquer her fear of falling off and ride Mulberry to victory in the Meadow Vale Summer Show? Or will Mulberry's bad behaviour ruin everything for them both? The story is beautifully illustrated throughout by Thomas Docherty who was shortlisted for the Kate Greenaway Medal and comes with fun horse facts in the back as well as free stickers, the perfect package for pony mad girls everywhere. *Eurofutures* David Smith, 1997. Few issues lend themselves better to multi-scenario planning than the future of Europe. Here David Smith has filled a glaring gap. He has done so with breadth of vision, open-mindedness and an authoritative command of this complex subject. It is a combination that makes this thoughtful book a must for business planners and policy makers. It also uniquely appeals to Europhiles and Euro-sceptics alike. Bill Jamieson, Sunday Telegraph. At a time when Europe's future is the subject of a grand experiment, this detailed exploration of what the results might be is invaluable. Everyone will find something to agree with or disagree with in *Eurofutures*. Either way it provides an immense amount of food for thought. Diane Coyle, *The Independent*. *EU Economic Governance and Globalization* Miriam Campanella, Sylvester C. W. Eijffinger, 2003. It is through a gradual evolution rather than by grand design that the somewhat fragmented economic policies of the EU now appear to be heading towards a rather more robust and coherent economic governance. *EU Economic Governance and Globalization* considers the following crucial question: as the EU enters its final stage of institution building, will the economic institutions of the EU push ahead to reform its rigid national economies and open them up to globalization and international competition? Focusing on telecommunications, air transportation, currency competition, taxation, eastern enlargement and transatlantic relations, the contributors to this book question whether EU standards, regulatory regimes and policies are flexible enough to bring about a dynamic and open economy. This book will be of interest to scholars of European and regional studies and international political economy as well as policy analysts and policymakers. The International Economy, 2003 *The European Union*
