Conferencing and Presentation English for Young Academics Michael Guest, 2018-09-15 This book discusses and demonstrates the types of English discourse used at academic conferences and offers guidance to prospective conference participants from multiple perspectives. It is a combination of research taken from numerous academic conferences attended and observations made by the author based on well established research methods in applied linguistics as well as a guidebook aimed at students, ESP teachers and young academics and professionals wishing to upgrade their skills to participate fruitfully in and contribute to academic conferences. It offers academic novices and non native speakers of English in particular much that is new and practical far beyond the realm of simple presentation tips. It addresses various topics such as chairing discussions, poster management, discussion sessions, the TED phenomenon, workshops and the emerging field of English as a lingua franca. The style alternates between the accessible and practical and the analysis of the linguistic categories underpinning the discourse genre analysis, the nature of the specialist discourse community, features of academic spoken discourse and the presentation as multimodal narrative are all explored. The book includes authentic samples of model speech discourse throughout along with questions and exercises for deliberation or practice in each chapter.

A Principled Approach to Language Assessment National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Committee on Foreign Language Assessment for the U.S. Foreign Service Institute, 2020-08-19 The United States is formally represented around the world by approximately 14,000 Foreign Service officers and other personnel in the U.S. Department of State. Roughly one third of them are required to be proficient in the local languages of the countries to which they are posted. To achieve this language proficiency for its staff, the State Department's Foreign Service Institute (FSI) provides intensive language instruction and assesses the proficiency of personnel before they are posted to a foreign country. The requirement for language proficiency is established in law and is incorporated in personnel decisions related to job placement, promotion, retention, and pay.

A Principled Approach to Language Assessment Considerations for the U.S. Foreign Service Institute evaluates the different approaches that exist to assess foreign language proficiency that FSI could potentially use. This report considers the key assessment approaches in the research literature that are appropriate for language testing, including but not limited to assessments that use task-based or performance-based approaches, adaptive online test administration, and portfolios.
