**System Administration With Sap Netweaver** B. Landry,S.

Kaur,2017-04-13 System Administration SAP HANA as a Database with SAP NetWeaver SAP Certified Technology Associate These questions are similar to the ones asked in the actual Test How should we know We know because although we have been working as an SAP Basis and Hana for many years we have recently certified with the latest version of the Certification test Before you start here are some Key features of the Certification Exam This certification exam verifies that the candidate has the knowledge required in the area of System Administration with SAP HANA as a Database This certificate builds on basic consultant skills and experience that is then refined by practical experience during several projects Candidates must also demonstrate understanding of Installation System Administration for both AS ABAP and AS Java Database Administration Transport Management System Monitoring and User Administration among other things The exam is Computer based and you have three hours to to answer 80 Questions The Questions are mostly multiple choice type and there is NO penalty for an incorrect answer Some of the Questions have more than one correct answer You must get ALL the options correct for you to be awarded points For questions with a single answer the answers will have a button next to them You will be able to select only one button For questions with multiple answers the answers will have a tick box next to them This allows you to select multiple answers You are not allowed to use any reference materials during the certification test no access to online documentation or to any SAP system Clearing the Certification will not automatically lead you to a job However a Certification with some project experience will certainly open a lot of doors for you So if you have little or no experience you should get yourself certified get some project experience and then the whole of the SAP Consulting World open for you to explore Helping you with the first step on you ladder to success is this book Some UNIQUE features of this Book There is NO Other quality material in the market for this Certification exam The authors have themselves cleared the exam All questions are multiple choice format similar the questions you will get in the actual exam Over 150 authentic questions testing the exact same concepts that will be tested in Your exam **105 SAP Basis (System Administration)**

**Interview Questions with Answers and Explanations** N. Thind,Kristine K,2012-06-21 What does it take to gain entry into the fascinating lucrative world of SAP System Administration A successful Interview In fact for contracting jobs all it takes is a half an hour telephone interview before you get your first break Though the interview procedure is more drawn out for permanent job there is normally only ever One technical interview A successful interview can provide you with that break which will be the first step to a career in the SAP World So what are the interviewers looking for For an associate level position less than 2 year s System Admin project experience here is what the interviewers typically look for Decent overall knowledge of SAP System Administration Deep knowledge in at least one or two area e g BW Oracle etc Ability to work in a team environment As you are a junior you will probably be working as part of a larger team Ability to find relevant technical information With System Administration being so wide no single consultant is reasonably expected to know everything However you should have the skills to find out more wherever required The kind of questions asked at the associate level

interview are less to do with tables and fields and more to do with your approach to a project issue or a support Issue This is something that can only come with experience or if you receive some coaching from experienced consultants So how would you like some insider knowledge of what kind of questions are asked in an actual Basis System Administration interview and what kind of response gets you the green light By reading this book Why should you buy this book Current Questions that are being asked in Interviews TODAY Every single question is based on project knowledge and personal experience Divided into Basis functionality areas for easy reading Covers the most important concepts configuration settings Focus on business scenarios Some unique features of this book The Question are ACTUAL questions asked in some of the regular interviews that the likes of Accenture IBM do How do we know Because we do some of these interviews The questions available on google are almost never asked in a Real interview This book contains Questions that are NOT available anywhere else The authors have a combined experience of over 20 years in SAP
