play and gaming culture have mainstreamed far right ideology through social media platforms From Gamergate to the
ongoing Big Lie the far right has gone mainstream In *Gaming Democracy* Adrienne Massanari tracks the flames of toxicity
found in the far right and alt right movements as they increasingly take up oxygen in American and global society In this
pathbreaking contribution to the fields of internet studies game studies and gender studies Massanari argues that Silicon
Valley's emphasis on meritocracy and free speech absolutism has driven this rightward slide These ideologies have been
coded into social media spaces that implicitly silence marginalized communities and subject them to rampant abuse by
groups that have learned to game the ecology of platforms algorithms and attention economies While populist movements are
not new phenomena such as QAnon parental rights activism and COVID denialism are uniquely of the internet with
supporters demonstrating both technical acumen and an ability to use memes and play as a way of both building community
and fomenting dissent Massanari explores the ways that the far right uses memetic humor and geek masculinity as tools both
to create a sense of community within these leaderless groups and to obfuscate their intentions Using the lens of play and
game studies as well as the concept of metagaming *Gaming Democracy* is a novel contribution to our understanding of online
platforms and far right political activism *The Classical Review*, 1910 This companion to the *Classical Quarterly* contains

Youth Digital Health and Online Platforms Martyna Gliniecka, 2024-12-27 *Youth Digital Health and Online Platforms*
focuses on young people's use of the digital platform Reddit for health Drawing upon dialogism theory the book explores how
young people produce a youth led discourse of youth digital health different from the adult led framing represented in youth
digital health research policy and service delivery Peer led discussions online remain one of the controversial forms of youth
digital health associated with negative peer influence or casual teenage talk This book argues that online peer led dialogues
support young people's agency in health and that young people can benefit from dealing with health issues with peers The
work is based on the digital ethnography of teenagers subreddits on Reddit and utilises a theoretical framework of dialogism
a linguistic based theory originated by an early 20th century Russian philosopher Mikhail Bakhtin The book introduces the

concept of dialogical youth led youth digital health discourse formed in the peer led space of Reddit This youth led discourse celebrates equality and diversity amongst people meanings and opinions It is constructed around three relational elements socio material affordances creative practices and a plurality of youth voices Reddit s pseudonymous anti authoritarian and egalitarian nature supports the emergence of this youth led discourse The book can interest scholars and lecturers in childhood and youth studies Internet studies and youth health studies Professionals such as policymakers service designers deliverers online safety educators and global youth and health agencies can use evidence based insights in their work with young people
