*Luxury Brand and Art Collaborations* Federica Carlotto, 2024-04-11 Over the past decades collaborative initiatives between luxury brands and the art world have been increasing in number and relevance At first treated as a mere trend or as a marketing stunt in time luxury art collaborations have come to be acknowledged as one of the most effective ways luxury brands and artists can position themselves in today s market engaging with their clients and audiences This book sheds light on the socio cultural valence of luxury art collaborations The book explores luxury art collaborations in the context of postmodern consumption i e as a phenomenon deeply rooted in and emerging from the ways postmodern individuals value and consume objects contents and ideas More specifically the book covers how collaborations reflect the postmodern condition and liquid consumption practices hybrid temporary hyperreal the impact of luxury art collaborations on the evolution of luxury stores and museums and the emergence of hybrid spaces art fairs nomadic exhibitions pop up stores the temporal features of luxury art collaborations shortlived duration and fast paced tempo how luxury art collaborations reshuffle traditional status dynamics while drawing new boundaries of social distinction based on experience and access why luxury brands and creatives are redefining their conventional identities morphing into cultural entities and bricoleurs The book appeals to a wide range of readers from academics and students in art business luxury studies consumption behaviour to professionals in the luxury industry and the art world The book is also relevant to an international readership of non specialists interested in current social and cultural matters

Momigliano and Antiquarianism Peter N. Miller, 2007-01-01 In *Momigliano and Antiquarianism* Peter N Miller brings together an international and interdisciplinary group of scholars to provide the first serious study of Momigliano s history of historical scholarship

*Eternal Capitalist Trickery* Jean-François Bouchard, 2025-10-23 The concentration of power and wealth in the hands of a small predatory class repeated crises the inability of politicians to influence the course of events worsening inequalities and the end of growth are the hallmarks of today s capitalism Since the fall of communism capitalism has had no competitors Will it die one day Not in the short term the system is stronger than governments its worst scoundrels enjoy widespread impunity and while economists have little or no understanding of how it works no clear alternative is emerging Above all no one seems to be seriously considering a fundamental reform of modern financial capitalism So do we have to live with it or not Curiously a century earlier this same situation had been analyzed by Nikolai Dimitrievich Kondratieff a famous economist and a committed player in the Russian Revolution of 1917 Kondratieff was executed by Stalin in 1938 for having scientifically demonstrated the eternity of capitalism Would he have the same opinion about capitalism today

**Two Strategies for Europe** Frédéric Bozo, Susan Emanuel, 2002-07-15 This timely book explores the often stormy French U S relationship and the evolution of the Atlantic Alliance under the presidency of Charles de Gaulle 1958D1969 The first work on this subject to draw on previously inaccessible material from U S and French archives the study offers a comprehensive analysis of Gaullist policies toward

NATO and the United States during the 1960s a period that reached its apogee with de Gaulle's dramatic decision in 1966 to withdraw from NATO's integrated military arm. This launched the French policy of autonomy within NATO which has since been adapted without having been abandoned. De Gaulle's policy often has been caricatured by admirers and detractors alike as an expression of nationalism or anti-Americanism. Yet Frederic Bozo argues that although it did reflect the General's quest for grandeur it also and perhaps more important stemmed from a genuine strategy designed to build an independent Europe and to help overcome the system of blocs. Indeed the author contends de Gaulle's actions forced NATO to adapt to new strategic realities. Retracing the different phases of de Gaulle's policies Bozo provides valuable insight into current French approaches to foreign and security policy including the recent attempt by President Chirac to redefine and normalize the France NATO relationship. As the author shows de Gaulle's legacy remains vigorous as France grapples with European integration a new role within a reformed NATO and relations with the United States.

Each director's entry contains a brief biographical summary including dates and places of birth and death information on the individual's education and professional training and other pertinent details such as real names when the filmmaker uses a pseudonym. The entries also provide complete filmographies including credits for feature films shorts documentaries and television work. Some of the most important names in the history of film can be found in this encyclopedia from masters of the Golden Age Jean Renoir and René Clair to French New Wave artists such as François Truffaut and Jean Luc Godard.
