Using Free Scribus Software to Create Professional Presentations: Book Covers, Magazine Covers, Graphic Designs, Posters, Newsletters, Renderings, and Alice Chen, Gang Chen, 2010-12-12 About 80% of people have the desire to write a book at some point With the advance of computer and printing technology this dream can become a reality One important factor of publishing a book is to create a professional looking book cover This book uses book cover design as a case study to teach you how to use FREE Scribus software instead of expensive professional software like InDesign Photoshop and QuarkXpress to create professional presentations With fewer words and many full color screenshots we walk you step by step through the entire process No prior experience is needed You will learn how to 1 Download all the FREE software needed 2 Put the cover template in correct formats 3 Set up the sheet correctly using units colors RGB or CMYK layers the imported cover template sizes guides bleed area and safety margin 4 Add the background color for the cover with a shape or image frame 5 Add the cover image and author s photo as well as how to handle a fully bleed image 6 Add the titles and text accurately including information on selecting or changing the text color using the text box centering the text aligning different text boxes and rotating the text 7 Add the barcode by extracting the barcode from an EPS file and moving all the barcode elements together or by adding the barcode as a JPEG image file 8 Use Scribus software to create professional presentations such as book covers magazine covers graphic designs posters newsletters renderings and more About the authors Alice Chen is an avid Scribus user She has extensive interest in presentation software and resides in California Gang Chen holds a master s degree from the School of Architecture University of Southern California USC Los Angeles and a bachelor s degree from the School of Architecture South China University of Technology He has over 20 years of professional experience Many of the projects he was in charge of or participated in have been published extensively in Architecture Architectural Record The Los Angeles Times The Orange County Register etc He has worked on a variety of unusual projects including well known large scale healthcare and hospitality projects with over one billion dollars in construction costs award winning school designs highly acclaimed urban design and streetscape projects multifamily housing high end custom homes

and regional and neighborhood shopping centers Gang Chen is a LEED AP and a licensed architect in California He is also the internationally acclaimed author for other fascinating books including Building Construction Planting Design Illustrated and the LEED Exam Guide series which includes one guidebook for each of the LEED exams *Leed Green Associate Exam Guide (Leed Ga) Comprehensive Study Materials, Sample Questions, Mock Exam, Green Building Leed Certification, and Sustainab* Gang Chen,2009 A Must Have for the LEED AP BD C Exam Study Materials Sample Questions Mock Exam Green Building Design and Construction LEED Certification and Sustainability *Cool Cities* Benjamin R. Barber,2017-04-24 A pointed argument that cities not nation states can and must take the lead in fighting climate change Climate change is the most urgent challenge we face in an interdependent world where independent nations have grown increasingly unable to cooperate effectively on sustainability In this book renowned political theorist Benjamin R Barber describes how cities by assuming important aspects of sovereignty can take the lead from faltering nation states in fighting climate change Barber argues that with more than half the world s population now in urban areas where 80 percent of both GDP and greenhouse gas emissions are generated cities are the key to the future of democracy and sustainability In this compelling sequel to *If Mayors Ruled the World* Barber assesses both broad principles of urban rights and specific strategies of sustainability such as fracking bans walkable cities above ground mining of precious resources energy and heating drawn from garbage incineration downtown wind turbines and skyscrapers built from wood He shows how cities working together on climate change despite their differences in wealth development and culture can find common measures by which to evaluate the radically different policies they pursue This is a book for a world in which bold cities are collaborating to combat climate change and inspire hope for democracy even as reactionary populists take over national governments in the United States and Europe It calls for a new social contract among citizens and municipalities to secure not only their sustainability but their survival
