Alperstein,2021-07-31 Performing Media Activism in the Digital Age breaks new ground by conceptualizing activism as a
performance extending beyond public space and the moment of public gatherings to consider the more extended view of
social or political movements as mediated social connections The book utilizes primary data extracted from social media
platforms by applying a social network analysis SNA approach to the people organizations and media that are trying to
advance their particular agendas with an eye toward a better understanding of the ways in which social movements operate
