International Guide to Student Achievement John Hattie, Eric M. Anderman, 2013-01-17 The International Guide to Student Achievement brings together and critically examines the major influences shaping student achievement today. There are many often competing claims about how to enhance student achievement raising the questions of What works and What works best. World renowned bestselling authors John Hattie and Eric M. Anderman have invited an international group of scholars to write brief empirically supported articles that examine predictors of academic achievement across a variety of topics and domains. Rather than telling people what to do in their schools and classrooms this guide simply provides the first ever compendium of research that summarizes what is known about the major influences shaping students academic achievement around the world.
