Digital Platforms and Global Law Bassan, Fabio,2021-11-17 Digital Platforms and Global Law focuses on digital platforms and identifies their relevant legal profiles in terms of transnational and international law It qualifies digital platforms as private legal orders which exercise the legislative executive and para jurisdictional power within them Starting from this assumption the author studies the relationship between these orders and state transnational and international orders and concludes that the power of states to impose rules on platforms is different in terms of their external in relation to other platforms and states and internal in their own legal system action New Media and Freedom of Expression András Koltay,2019-07-25 The principles of freedom of expression have been developed over centuries How are they reserved and passed on How can large internet gatekeepers be required to respect freedom of expression and to contribute actively to a diverse and plural marketplace of ideas These are key issues for media regulation and will remain so for the foreseeable decades The book starts with the foundations of freedom of expression and freedom of the press and then goes on to explore the general issues concerning the regulation of the internet as a specific medium It then turns to analysing the legal issues relating to the three most important gatekeepers whose operations directly affect freedom of expression ISPs search engines and social media platforms Finally it summarises the potential future regulatory and media policy directions The book takes a comparative legal approach focusing primarily on English and American regulations case law and jurisprudential debates but it also details the relevant international developments Council of Europe European Union as well as the jurisprudence of the European Court of Human Rights **We Have Received A Complaint (US Edition)** Matt Malone,2024-04-30 We used to go to court to enforce our rights Now we do it at the office Workplace investigations are everywhere From complaints at Fox

BBC TVO and The Ellen DeGeneres Show to sports teams like the Seattle Mariners the Boston Celtics and the Dallas Mavericks as well as Fortune 500 companies governments universities and schools seemingly every week brings a new announcement of another workplace under scrutiny As conflicts increase in a new era of behavioral expectations offices are being transformed into forums of informal justice Investigators are summoned to adjudicate and peers become witnesses in poorly understood often opaque proceedings The shift is fraught for all involved complainants often feel the investigations fail to right wrongs respondents regularly decry them as exercises in shunning employers wonder how they fell into this role

Minako O'Hagan,2011 The new communications infrastructure based on Web 2.0 suggests a formidable impact on translation. The prevailing technological trends for openness, sharing, and collaboration are prompting participation by the Internet crowd in well-established professional areas of work, leading to the emergence of community translation or so-called translation crowdsourcing. Under the theme of community translation as a social activity and its possible consequences, contributors in this volume consolidate the developments to date and cover the latest initiatives while addressing pertinent issues arising from the blurred boundary between professionals and non-professionals. Master's Thesis from the year 2016 in the subject Tourism. Miscellaneous grade 1-3. Stralsund University of Applied Sciences Faculty of Business Studies course Tourism Development Strategies language English abstract. This thesis is aimed to test a hypothesis of the country brand's reliance on the online presence. The created evaluation model used in the primary research of this paper determines whether there is enough evidence in the data gathered to indicate that the online presence of a tourist destination corresponds to its country brand's rank. The research is focused on the online presence of Lithuania as a weak ranking country brand. The online presence results of Lithuania as a tourist destination are compared to the examples of two stronger country brands. The conclusions derived from the comparison of the results determine the success of the online presence of Lithuania, establish whether the hypothesis of the thesis is true or not, while noting the limitations and possible errors of the research and provide the suggestions for the country brand and online presence improvements. **Forbes**.
