

SUN TZU – INDIRECT APPROACH STRATEGY

Sun Tzu, the ancient Chinese military strategist, wrote "The Art of War" more than two thousand years ago. His principles and strategies are still used today in business, sports, personal relationships and many other arenas. By studying Sun Tzu's timeless wisdom, we can learn how to outsmart our opponents on any playing field.

One of Sun Tzu's most important strategies is to know yourself as well as your enemy. It is essential to understand your own strengths and weaknesses before attempting to outwit an opponent. Knowing what you bring to the table helps you ensure that your plan is tailored to maximise your advantage over your adversary. It also helps identify potential weaknesses that could be exploited by the opposition.

Sun Tzu also emphasises the importance of being flexible and adaptive when facing an adversary. He advises us not to rely too heavily on a single strategy or tactic but rather be willing to consider different approaches in order to gain an advantage over our opponent. To do this effectively we must remain aware of our environment, anticipate our opponents' moves and adjust accordingly. This allows us to stay one step ahead so that we may respond effectively when faced with unexpected obstacles or changing conditions in battle or negotiation.

Another key principle from Sun Tzu is the idea of "The Indirect Approach" which suggests avoiding direct confrontation with a superior enemy if possible in order to gain victory through deception or surprise tactics instead. This involves using mental agility and creative problem-solving skills rather than relying solely on physical strength or brute force alone which may not always be effective against a more powerful foe. By employing this strategy wisely, it can help us gain an edge over our adversaries without having to resorting them head-on combat situations which could end up being costly for both sides involved in the engagement .
