Selection Chapter 18 Programmatic Assessment Chapter 19 Internal Assessment Basic Principles Chapter 20 The Quarter Model Chapter 21 Assessment in Online Settings Chapter 22 Item Analysis and Question Banking Chapter 23 Standard Setting Chapter 24 Educational Feedback to Students Chapter 25 Student Ratings of Teaching Effectiveness Chapter 26 Is Objectivity Synonymous with Reliability Chapter 27 Faculty Development for Better Assessment Chapter 28 Online Resources for Assessment Index

Practical Guide to Medical Student Assessment Zubair Amin, Yap Seng Chong, Hoon Eng Khoo, 2006 This practical guide provides a simple useful reference to commonly raised questions about medical student assessment The first part of the book provides succinct information on the general aspects of assessment such as purpose and principles of assessment technical terms such as validity reliability and utility of assessment instruments and how to choose assessment instruments for a given purpose Individual assessment instruments are treated in the second part of the guide The authors focus on about 20 selected assessment instruments currently in use or promising new instruments that are likely to get increased acceptance in future For each instrument a general description is given followed by discussion on its uses limitations psychometric characteristics and recommendations for medical teachers The reference section contains highly selective and well researched resources annotated and classified according to their usefulness Many of these resources are available free on the Internet

Assessment Methods in Medical and Health Care Education Comfort Osonnaya, Kingsley Osonnaya, 2001-09-01

How to Design a Useful Test Lambert W. T. Schuwirth, Cees Vleuten, 2006

The Principles of Assessment in Medical Education Salami Suberu Sule Mmed, 2025-07-07 In the evolving landscape of medical education assessment is no longer just a measurement tool it is a transformative force that shapes learning defines competency and drives curriculum improvement Principles of Assessment in Medical Education by Dr Salami Sule is a groundbreaking and contextually rich textbook that addresses the theory practice and real world application of assessment in both undergraduate and postgraduate medical training Drawing on the author's extensive experience at the National Postgraduate Medical College of Nigeria NPMCN and advanced studies in medical education at the University of Dundee this book offers a unique blend of international best practices and local relevance tailored to the needs of health professions education in Africa and beyond What This Book Offers This comprehensive textbook is structured across eight chapters each building progressively on essential concepts in assessment science Chapter 1 Introduction to Assessment in Medical Education Introduces key assessment principles historical evolution and foundational elements including learning objectives taxonomies and the purposes of assessment It emphasizes the alignment of teaching learning and assessment to produce competent professionals Chapter 2 Theoretical Foundations of Assessment Explores major assessment models like Miller's Pyramid Van der Vleuten's Utility Equation and Entrustable Professional Activities EPAs It includes psychometric principles e.g Classical and Modern Test Theory and educational theories underpinning assessment systems Chapter 3 Designing Effective Assessments Focuses on aligning learning objectives with assessment methods through blueprinting and curriculum

mapping It also addresses resource planning stakeholder involvement and the balance between formative and summative assessment strategies Chapter 4 Tools and Methods of Assessment in Medical Education Provides practical guidance on using MCQs essays OSCEs oral exams portfolios WBAs and e assessment tools Each method is analyzed for validity reliability feasibility and suitability for assessing knowledge skills attitudes and competencies KSAC Chapter 5 Ensuring Validity and Reliability Discusses how to enhance the integrity of assessment through techniques that support validity e g triangulation authenticity and reliability e g standardization interrater agreement Chapter 6 Standard Setting A critical deep dive into norm referenced and criterion referenced methods of standard setting such as Angoff Ebel and Borderline Regression methods with practical examples from Nigerian and global contexts Chapter 7 Self and Peer Assessment Highlights the importance of learner centered assessment practices It outlines best practices in promoting reflective learning peer review and student empowerment supported by examples specific to each specialty Chapter 8 Giving Feedback Provides frameworks for effective verbal and written feedback including handling difficult feedback conversations and leveraging multi sourced feedback Grounded in psychological safety and growth oriented strategies Case Studies Bridging Theory and Practice The book includes 18 real life and simulated case studies that demonstrate the application of theory in clinical and academic settings Why This Book Matters In a time where competency based medical education is becoming the global standard this textbook provides the tools language and frameworks to implement meaningful fair and defensible assessments

Assessment Methods in Medical and Healthcare Education Comfort Osonnaya,2010 *Written Assessment in Medical Education* Hosam Eldeen Elsadig Gasmalla,Alaa AbuElgasim Mohamed Ibrahim,Majed M. Wadi,Mohamed H. Taha,2023-03-11 This book is an indispensable yet simple reference for the daily use of a medical teacher It addresses the needs of medical teachers interested in providing instruction and assessment in writing and written language offering detailed guidance in simple and straightforward language The book goes beyond mere description it provides many practical examples valuable materials that can be utilized in training workshops and medical educator professional development courses The book will be of interest to novice and experienced teachers in medical schools in addition to university teachers in other health professions such as dentistry pharmacy nursing medical laboratory physiotherapy biomedical engineering and veterinary medicine

International Best Practices for Evaluation in the Health Professions William Mcgaghie,2022-02-16 This unique text presents a comprehensive narrative on why and how health professions students need to be evaluated for practice in the 21st century It systematically addresses current evaluation best practices in the health professions to identify today s evaluation benchmarks reveal evaluation limits address improvement pathways and map a research agenda to boost future evaluation practices Advancements in information and communication technology bioscience and behavioral research and worldwide travel are dissolving barriers that have separated professions countries and cultures for centuries This book both celebrates these achievements and carefully considers next steps It recognizes the huge

improvements made in evaluation practices within the health professions over the past 40 years but asks for more calling for added reform and better understanding of current practice from different social cultural and educational perspectives International Best Practices for Evaluation in the Health Professions values crossprofessional programs that span boundaries and acknowledge the authority of the future rather than historical baggage Educators worldwide will be enlightened and inspired by its straightforward compelling narrative *Assessment Methods Medical and Healthcare Education Made Very Simple* Comfort Osonnaya,2010 **How to Use and Apply Assessment Tools in Medical Education?** Said Said Elshama,2022 Assessment in medical education usually gives the evidence that learning was carried out and the learning objectives were achieved The assessment program is a measurement tool to evaluate the progress in knowledge skills behaviors and the attitude of students So the planning for an effective assessment program should be based on instructional objectives instructional activities and efficient assessment methods Thus a well designed assessment procedure should be characterized by validity and reliability There are two methods for interpreting the results of students performance norm referenced and criterion referenced the first gives a relative ranking of students while the second describes learning tasks that students can and cannot perform The information that gets from the assessment results should be used effectively to evaluate and revise the instructional course for more improvement Therefore the reporting of the assessment results to stakeholders should be clear comprehensive and understandable to prevent misinterpretation that may affect students and other stakeholders adversely **Practical Guide to the Evaluation of Clinical Competence** Eric S. Holmboe, Steven J. Durning, Richard E. Hawkins, 2017-05-01 Designed to help medical educators implement better assessment methods tools and models directly into training programs *Practical Guide to the Evaluation of Clinical Competence 2nd Edition* by Drs Eric S Holmboe Steven J Durning and Richard E Hawkins is a hands on authoritative guide to outcomes based assessment in clinical education National and international experts present an organized multifaceted approach and a diverse combination of methods to help you perform effective assessments This thoroughly revised edition is a valuable resource for developing implementing and sustaining effective systems for evaluating clinical competence in medical school residency and fellowship programs *Assessment in Medical Education and Training* Neil Jackson, 2007 This work contains a foreword by Dame Lesley Southgate President Royal Free and University College Medical School London Assessment is a key method of improving standards as well as establishing competency However despite major developments in the assessment of clinical competence in the last two decades there is still more bad practice and ignorance of significant issues in this area than any other aspect of medical higher education This book comprehensively covers all aspects of assessment It considers current and future policy and practice including the Modernising Medical Careers *Assessment Measures in Medical School, Residency, and Practice* Joseph S. Gonnella, 1993 *General Overview of the Theories Used in Assessment* Lambert W. T. Schuwirth, Cees Vleuten, 2012 As assessment is modified to suit student learning it is important that we understand the

theories that underpin which method of assessment are chosen This guide provides an insight into the essential theories used
